

Community Reinvestment Act Notice

LCNB National Bank

Under the Federal Community Reinvestment Act (CRA), the Office of the Comptroller of the Currency (OCC) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The OCC also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under the CRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent CRA Performance Evaluation, prepared by the OCC, and comments received from the public relating to our performance in helping to meet community credit needs, as well as our responses to those comments. You may review this information today.

At least 30 days before the beginning of each calendar quarter, the OCC publishes a list of the banks that are scheduled for CRA examination by the OCC for the next two quarters. This list is available through the OCC's website at [OCC.gov](https://www.occ.gov).

You may send written comments about our performance in helping to meet community credit needs to Bradley Ruppert, Executive Vice President, (bruppert@lcnb.com), 2 North Broadway, Lebanon, OH 45036, to the Deputy Comptroller, Large Bank Supervision, Office of the Comptroller of the Currency, 400 7th Street SW, Washington, DC 20219. You may also submit comments electronically to the OCC at CRAComments@occ.treas.gov. Your written comments, together with any response by us, will be considered by the OCC in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the Deputy Comptroller. You may also request from the Deputy Comptroller an announcement of our applications covered by the CRA filed with the OCC. We are an affiliate of LCNB National Bank, a bank holding company. You may request from Banking Supervisor, Federal Reserve Bank of Cleveland, 1455 East Sixth St., Cleveland, OH 44114 (questions.applications@clev.frb.org) an announcement of applications covered by the CRA filed by bank holding companies.

“Further Together”

Fiduciary Services

Charges for Trust Division services will normally be calculated and deducted from the account quarterly in arrears. Customers may, by special arrangement, have fees billed to them separately.

For accounts where LCNB manages the account with full investment responsibility, the fee will be as follows:

<u>Assets Under Management</u>	<u>Fee Rate</u>
First \$1,000,000	1.25%
Next \$2,000,000	1.00%
Next \$2,000,000	0.75%
Next \$5,000,000	0.60%
Above \$10,000,000	0.50%

For irrevocable trust accounts, the fee rate will be increased by .10%.

Multiple accounts within a relationship will typically be combined for fee purposes.

A minimum fee of \$5,000 per year will apply to each relationship.

- If LCNB is or becomes trustee or trustee agent of a trust on or after a grantor's death, and LCNB provides services to settle the grantor's trust, LCNB will charge a settlement fee pursuant to its separate Fiduciary Settlement Services fee schedule.
- LCNB may charge a fee of up to 1% of the market value of the account when an account is transferring to another institution or otherwise terminating at LCNB.
- For services involving the regular payment of medical and personal bills or filing medical reimbursement claims, there will be an additional charge of \$500.00 per year, billed quarterly.
- For the management of real estate, fees will be charged according to the separate Real Estate Services fee schedule.
- Services requiring unusual amounts of Trust administrative time will be billed accordingly.
- If LCNB employs tax and/or legal counsel to assist with certain trust and estate matters, such costs will be charged to the account.
- When serving as a co-fiduciary, LCNB will receive the same compensation as if it were acting as sole fiduciary.
- Fees for preparation and filing of trust income tax returns where LCNB serves as trustee are already included in the above fee schedule. However, additional tax fees will apply when LCNB serves as agent for trustee or for unique and extraordinary tax services provided to the trust.
- Trading expenses are charged to the account and are disclosed on the account statement.

Appendix B: Summary of State Ratings.....B-1

Appendix C: Definitions and Common AbbreviationsC-1

Appendix D: Tables of Performance Data.....D-1

Overall CRA Rating

Institution's CRA Rating: This institution is rated **Satisfactory**.

The following table indicates the performance level of LCNB National Bank (LCNB or the bank) with respect to the Lending, Investment, and Service Tests:

Performance Levels	LCNB National Bank Performance Tests		
	Lending Test*	Investment Test	Service Test
Outstanding			
High Satisfactory	X	X	X
Low Satisfactory			
Needs to Improve			
Substantial Noncompliance			

* The Lending Test is weighted more heavily than the Investment and Service Tests when arriving at an overall rating.

The major factors that support this rating include:

- The Lending Test rating is based on the state rating and the following overall conclusions.
 - Lending levels reflect good responsiveness to assessment area (AA) credit needs.
 - A substantial majority of the bank's loans are inside its AAs.
 - The bank exhibits a good distribution of loans to individuals of different incomes and businesses and farms of different sizes.
- The Investment Test rating is based on the state rating and overall good performance in the AAs.
- The Service Test rating is based on the state rating and overall good performance in the AAs. Service delivery systems are accessible to geographies and individuals of different income levels in the bank's AA.

Lending in Assessment Area

A substantial majority of the bank's loans are in its AAs.

The bank originated and purchased 87.3 percent of its total loans inside the bank's AAs during the evaluation period. This analysis is performed at the bank, rather than the AA, level.

Description of Institution

LCNB is a federally chartered national bank headquartered in Lebanon, Ohio. As of December 31, 2021, LCNB had total assets of \$1.9 billion with \$1.4 billion in net loans and leases, \$1.6 billion in total deposits, and \$175.6 million in tier 1 capital. LCNB is a subsidiary of LCNB Corp., also headquartered in Lebanon, Ohio. The bank has two affiliates, LCNB Title Company and LCNB Risk Management; however, affiliate data was not considered in this evaluation. There was no merger or acquisition activity that affected the scope of the bank's operations during the evaluation period.

LCNB's primary products are mortgage and commercial lending. As of December 31, 2021, net loans and leases represented 71.8 percent of total assets. By dollar volume, the \$1.4 billion loan portfolio is 89.3 percent real estate secured, 7.4 percent commercial and industrial, 2.5 percent consumer, and 0.8 percent agriculture. Of the real estate secured loans, 55 percent are commercial, 28.1 percent are residential, 13.7 percent are multifamily, and 3.2 percent are agriculture. The bank engages primarily in traditional deposit taking activities through physical offices.

LCNB is a single state financial institution with 36 facilities (branches and automated teller machines (ATMs)) as of December 31, 2021. The bank's only rating area is the state of Ohio. Since the prior Community Reinvestment Act (CRA) evaluation, LCNB did not open any new branches, closed four branches, and closed one loan production office (LPO). As of December 31, 2021, the bank's current

facilities included 31 full-service branches, one drive-through auto bank location, and four stand-alone ATMs. Of the 32 offices (full-service and auto bank), one branch is located in a low-income census tract (CT), five in moderate-income CTs, 19 in middle-income CTs, six in upper-income CTs, and one in a CT in which the geography has not been assigned an income classification. The four ATM-only locations are stand-alone ATMs, with one in a middle-income CT and three in upper-income CTs. Additionally, LCNB has 33 ATMs located at branch offices, with two branches having two ATMs. All branches have an ATM except for the Worthington/Columbus Branch. The ATMs do not accept deposits.

During the evaluation period, the bank closed two branches in Preble County in middle-income CTs as of May 7, 2020, and one branch in Warren County in an upper-income CT as of June 25, 2021. LCNB closed one branch in Hamilton County in a middle-income CT as of February 18, 2022, which is after the CRA evaluation period. The bank also closed their only LPO in Columbus, Ohio, as of May 31, 2019. The LPO was in a middle-income CT in Franklin County, Ohio.

The branches are primarily located throughout central and southwest Ohio. The bank entered the Columbus, Ohio, market in 2018. The bank has three AAs that are comprised of portions of three Metropolitan Statistical Areas (MSAs) in Ohio: Cincinnati (a multistate area), Dayton, and Columbus. A fourth AA is comprised of non-MSA areas in Ohio and consists of Clinton, Fayette, Preble, and Ross Counties (Non-MSA AA).

For years 2019 and 2020, the bank's Cincinnati Multistate MSA AA (Cincinnati MMSA AA) consisted of Butler and Warren Counties, six CTs in Clermont County, and 89 CTs in Hamilton County. In 2021, the bank revised their Cincinnati MMSA AA to include whole counties, which included Butler, Clermont, Hamilton, and Warren Counties. The counties in this AA are within Ohio, so this MMSA is not a separate rating area. For years 2019 and 2020, the bank's Columbus MSA AA (Columbus MSA AA) consisted of Franklin County and 27 CTs in Delaware County. In 2021, the bank revised their Columbus MSA AA to include whole counties, which included Delaware and Franklin Counties. For all three years of the evaluation period, the Dayton MSA AA included Montgomery County. There were no changes to the Non-MSA AA during the evaluation period, which included Clinton, Fayette, Preble, and Ross Counties.

LCNB ranked 10th, 25th, 10th, and first in deposit market share in the Cincinnati MMSA AA, Columbus MSA AA, Dayton MSA AA, and Non-MSA AA, respectively, as of the Federal Deposit Insurance Corporation's (FDIC) Deposit Market Share Report as of June 30, 2021. Primary competitors include Fifth Third Bank, National Association (N.A.), U.S. Bank N.A., JPMorgan Chase Bank, N.A., The Huntington National Bank, and Union Savings Bank.

The bank offers a full range of deposit, lending, and trust services. Deposit products include checking accounts, savings accounts, and certificates of deposit for personal or business use. Lending products consist of mortgage, personal, business, and agriculture loans. LCNB offers a full range of trust and investment services, such as personal portfolio management, estate settlement, and retirement accounts. LCNB also offers internet-banking services such as online account opening, electronic statements, mobile deposits, mobile payments, and external transfers.

The global Coronavirus Disease (also referred to as COVID-19) pandemic in 2020 impacted the local economy, including unemployment data. The Small Business Administration's (SBA) Paycheck Protection Program (PPP) provided loans to help businesses keep their workforces employed during the

COVID-19 crisis. The bank was responsive to the SBA's PPP and originated a significant volume of PPP loans in 2020 and 2021. Refer to the Lending Test section of this report for more details.

No legal, financial, or other factors impeded the bank's ability to help meet the credit needs of its AAs during the evaluation period. The bank received a Satisfactory rating at the prior CRA evaluation dated May 13, 2019.

Scope of the Evaluation

Evaluation Period/Products Evaluated

The Office of the Comptroller of the Currency (OCC) conducted a CRA performance evaluation to assess the bank's record of meeting the credit and CD needs of its entire community, including low- and moderate-income (LMI) areas. The OCC used large bank CRA evaluation procedures to assess the bank's performance under the Lending, Investment, and Service Tests. The evaluation period was January 1, 2019, to December 31, 2021.

For the Lending Test, the OCC evaluated home mortgage loans reported under the Home Mortgage Disclosure Act (HMDA) and small loans to businesses and farms reported under the CRA. Under the Lending Test, the OCC performed separate analyses of the 2019 and 2020 data and the 2021 data due to the change in the AAs as of 2021 with the bank designating whole counties instead of partial counties in its AAs. LCNB did not change its lending strategy during the two analysis periods.

For the Investment and Service Tests, the OCC evaluated CD investments and services during the evaluation period. Additionally, the OCC performed separate analyses of the 2019 and 2020 information and the 2021 information due to the change in the AAs as of 2021 with the bank designating whole counties instead of partial counties in its AAs. LCNB did not change its CD investment and service strategy during the two analysis periods.

For analysis purpose, the OCC compared the bank's lending performance with demographic data from the 2015 American Community Survey (ACS) U.S. Census data and 2021 Dun and Bradstreet (D&B) data. No affiliate activity was included in this analysis. Refer to the table in appendix A, Scope of the Examination, for more information on the scope of the review.

Selection of Areas for Full-Scope Review

In each state where the bank has an office, one or more AAs within that state was selected for a full-scope review. For purposes of this evaluation, bank delineated assessment areas located within the same metropolitan statistical area (MSA), multistate metropolitan statistical area (MMSA), or combined statistical area (CSA) are combined and evaluated as a single AA. Similarly, bank delineated non-MSA AAs within the same state are combined and evaluated as a single area. These combined AAs may be evaluated as full- or limited-scope. Refer to the "Scope" section under each State Rating section for details regarding how full-scope AAs were selected. Refer to appendix A, Scope of Examination, for a list of full- and limited-scope AAs.

LCNB has four AAs, as described above. The OCC completed a full-scope review for each AA: Cincinnati MMSA AA, Columbus MSA AA, Dayton MSA AA, and Non-MSA AA. A community

profile for each AA is provided in the “Description of Institution’s Operations in Ohio” section of this evaluation.

The OCC evaluated the bank’s performance through an analysis of home mortgage, small loans to businesses, small loans to farms, CD lending, CD investment activity, retail service activity, and CD services.

Ratings

The bank’s overall rating is a blend of the state ratings. Since all LCNB’s offices are in Ohio, the bank’s rating is based on performance solely in Ohio.

The rating is based on performance in all the bank’s AAs. Performance in the Cincinnati MMSA AA was weighted most heavily as 59.1 percent of deposits and 59.4 percent of branch offices are in that AA. Additionally, approximately half of the home mortgage and small business loan originations and purchases are in the Cincinnati MMSA AA. By product type, home mortgage loans received the most weight, followed by small loans to businesses and small loans to farms. Home mortgage loans represented 50 percent by number and 62.5 percent by dollar volume of total home mortgage, small loans to businesses, and small loans to farms during the evaluation period.

Discriminatory or Other Illegal Credit Practices Review

Pursuant to 12 C.F.R. §25.28(c) or §195.28(c), respectively, in determining a national bank’s or federal savings association’s (collectively, bank) CRA rating, the OCC considers evidence of discriminatory or other illegal credit practices in any geography by the bank, or in any assessment area by an affiliate whose loans have been considered as part of the bank’s lending performance. As part of this evaluation process, the OCC consults with other federal agencies with responsibility for compliance with the relevant laws and regulations, including the U.S. Department of Justice, the U.S. Department of Housing and Urban Development, and the Bureau of Consumer Financial Protection, as applicable.

The OCC has not identified that this institution (or any affiliate whose loans have been considered as part of the institution’s lending performance) has engaged in discriminatory or other illegal credit practices that require consideration in this evaluation.

The OCC will consider any information that this institution engaged in discriminatory or other illegal credit practices, identified by or provided to the OCC before the end of the institution’s next performance evaluation in that subsequent evaluation, even if the information concerns activities that occurred during the evaluation period addressed in this performance evaluation.

State Rating

State of Ohio

CRA rating for the State of Ohio¹: Satisfactory.

The Lending Test is rated: High Satisfactory.

The Investment Test is rated: High Satisfactory.

The Service Test is rated: High Satisfactory.

The major factors that support this rating include:

- Lending levels reflect good responsiveness to AA credit needs.
- The bank exhibits a good distribution of loans to individuals of different incomes and businesses and farms of different sizes.
- The bank is a leader in making CD loans which has a positive impact on the bank's performance.
- LCNB's CD investment performance is overall good in the AAs and the greater regional area.
- LCNB's overall service test performance is good. Service delivery systems are reasonably accessible to geographies and individuals of different income levels in the bank's AA. The institution provides an adequate level of CD services.

Description of Institution's Operations in Ohio

All operations are in the state of Ohio. Refer to the "Description of Institution" section above for additional information. There are no substantial differences in business focus or services offered between the different AAs. LCNB selected the AAs based on their targeted lending area and deposit locations. The AAs meet the requirements of the regulation and do not arbitrarily exclude any LMI CTs. The bank is headquartered in the Cincinnati MMSA AA, with most of the lending and deposit activity in the Cincinnati MMSA AA.

() The NA category consists of geographies that have not been assigned an income classification.*

For years 2019 and 2020, the bank's Cincinnati MMSA AA consisted of Butler and Warren Counties, six CTs in northern Clermont County, and 89 CTs in Hamilton County. The Cincinnati MMSA AA was updated in 2021 to include whole counties. As of 2021, the bank's Cincinnati MMSA AA now includes Butler, Clermont, Hamilton, and Warren Counties. As of December 31, 2021, LCNB had 19 branches, 18 full-service and one limited-service auto drive-through, in this AA. There are four stand-alone ATMs in this AA. Additionally, there is an ATM at all branches in this AA, with two branches having two ATMs. Of the 19 branches, one is in a low-income CT, one is in a moderate-income CT, 14 are in middle-income CTs, two are in upper-income CTs, and one is in a CT that has not been assigned an income classification.

Based on the bank's AA in 2021 and U.S. Census data in the above table, the population in the Cincinnati MMSA AA increased by approximately 1 percent, from 2010 to 2015, which compares reasonably to the state of Ohio, which increased about the same. According to the 2015 ACS U.S. Census, the AA consists of 375 CTs, and is comprised of 52 low-income, 83 moderate-income, 127 middle-income, 105 upper-income, and eight CTs in which the geography has not been assigned any income classification.

The economic conditions in the Cincinnati MMSA AA have improved since the start of the COVID-19 pandemic and are overall stable. According to Moody's Analytics, Cincinnati's recovery from COVID-19 is improving and outperforming other major Ohio metro areas. For 2020, COVID-19 was challenging to the economy with higher-than-normal unemployment rates. According to the U.S. Bureau of Labor Statistics as of December 2021, not seasonally adjusted unemployment rates in Butler, Clermont, Hamilton, and Warren Counties were 3.1 percent, 3 percent, 3.2 percent, and 2.8 percent, respectively. These unemployment rates compare favorably to the statewide rate of 3.6 percent.

The economy in the Cincinnati MMSA AA is well diversified with little dependency on one industry. According to Moody's Analytics, top industries include trade, government, professional and business services, education and health services, leisure and hospitality, and manufacturing. Top employers in the area include Procter & Gamble Co., General Electric Co., Cincinnati Children's Hospital Medical Center, Kroger Co., TriHealth Inc., UC Health, Mercy Health, and the University of Cincinnati.

According to the 2015 ACS U.S. Census, the median housing value of owner-occupied housing units is \$160,023. With median family income of \$69,949, moderate-income families make less than \$55,959 and low-income families make less than \$34,975 annually. Median housing values are at least 2.9 times the annual income of moderate-income families and 4.6 times the annual income of low-income families. Thus, the cost of housing is a significant barrier to homeownership among LMI families. As of the 2015 ACS U.S. Census, there are 690,732 total housing units in the Cincinnati MMSA AA, of which 58.2 percent are owner-occupied, 31.5 percent are rental occupied, and 10.3 percent are vacant units. Families living below the poverty level increased from 9.8 percent as of 2019-2020 to 10.5 percent in 2021. The median age of housing stock is approximately 52 years. The cost of homeownership in older housing is typically higher than in newer housing; thus, the median age of housing in LMI geographies is also a significant barrier to mortgage lending in those CTs.

Competition for deposits in the AA is strong. As of the June 30, 2021, FDIC Deposit Market Share Report, LCNB held \$932.8 million or 0.64 percent of the deposits inside this market area. This represents 59.1 percent of LCNB's total deposits. As of the June 30, 2021, FDIC Deposit Market Share Report, LCNB ranked 10th out of 46 deposit market competitors. The market is dominated by large financial institutions. The top five financial institutions in deposit market share are U.S. Bank N.A., Fifth Third Bank, N.A., PNC Bank, N.A., First Financial Bank, and The Huntington National Bank. These financial institutions hold 90.5 percent of total deposits in the AA.

A little over half of the bank's home mortgage lending occurs in the Cincinnati MMSA AA. Based on the 2020 Peer Mortgage Data, LCNB has 0.44 percent of the market share for home mortgages, lending \$90.4 million and ranking 50th among 564 market participants. The market is dominated by large banks and banks with large secondary mortgage market operations. The top five institutions for home mortgage lending are Union Savings Bank, Fifth Third Bank, N.A., U.S. Bank N.A., The Huntington National Bank, and Quicken Loans, LLC. Combined these five financial institutions have 27.7 percent of the total market share.

About half of the small business lending occurs in this AA. Competition for loans is strong. According to the 2020 Peer Small Business Data, 186 lenders originated or purchased small business loans in the AA. The top five institutions for small business lending are U.S. Bank N.A., Fifth Third Bank, N.A., PNC Bank, N.A., The Huntington National Bank, and JPMorgan Chase Bank, N.A. The top five competitors hold 69.2 percent of the market share, while LCNB holds 0.64 percent, ranking 18th out of 186 lenders. According to the D&B data as of June 2021, 82.1 percent of the businesses located in the AA have gross annual revenues of \$1 million or less and 65.6 percent have fewer than five employees.

Approximately 25 percent of the bank's farm lending occurs in this AA. According to the 2020 Peer Small Farm Data, 21 lenders originated or purchased small farm loans in the AA. The top five institutions for small farm lending are The Huntington National Bank, U.S. Bank N.A., LCNB, Peoples Bank, and Capital One Bank (USA), N.A. The top four competitors hold 72 percent of the market share, while LCNB holds 9 percent, ranking third out of 21 lenders.

Two community contacts were performed with community service organizations that serve the Cincinnati MMSA AA. The contacts discussed the need for additional support for financial literacy and general operating support for community service providers. In terms of specific lending needs, small dollar loans, automobile loans, and home repair/rehabilitation loans were all mentioned. Additionally, affordable housing is a need in the community and one contact mentioned the need for non-FHA (Federal Housing Administration) loans as these loans can be more expensive. One contact mentioned that banks have been more responsive and creative in CD services. Overall, local financial institutions are adequately meeting the credit and CD needs of the community.

In 2018, LCNB entered the Columbus MSA market area after acquiring Columbus First Bank. For years 2019 and 2020, the bank's Columbus MSA AA consisted of Franklin County and 27 CTs in Delaware County. In 2021, the bank revised their Columbus MSA AA to include whole counties, which now includes Delaware and Franklin Counties in their entirety. As of December 31, 2021, LCNB has one branch in the Columbus MSA AA in an upper-income CT. There is no onsite ATM at this branch. Based on the bank's AA in 2021 and the 2015 ACS U.S. Census, the AA consists of 319 CTs, and is comprised of 61 low-income, 77 moderate-income, 81 middle-income, 97 upper-income, and three CTs in which the geography has not been assigned any income classification.

The economic conditions in the Columbus MSA AA have improved since the start of the COVID-19 pandemic and are overall stable. According to Moody's Analytics, Columbus' recovery is improving with recent job growth. For 2020, COVID-19 was challenging to the economy with higher-than-normal unemployment rates. According to the U.S. Bureau of Labor Statistics as of December 2021, not seasonally adjusted unemployment rates in Delaware and Franklin Counties were 2.4 percent and 3 percent, respectively. These unemployment rates compare favorably to the statewide rate of 3.6 percent.

The economy in the Columbus MSA AA is well diversified with little dependency on one industry. According to Moody's Analytics, top industries include trade, government, transportation and utilities, professional and business services, education and health services, leisure and hospitality, and manufacturing. Top employers in the area include Ohio State University, OhioHealth, JPMorgan Chase Bank & Co., Nationwide, and Nationwide Children's Hospital Inc.

According to the 2015 ACS U.S. Census, the median housing value of owner-occupied housing units is \$165,048. With median family income of \$70,454, moderate-income families make less than \$56,363 and low-income families make less than \$35,227 annually. Median housing values are at least 2.9 times the annual income of moderate-income families and 4.7 times the annual income of low-income families. Thus, the cost of housing is a significant barrier to homeownership among LMI families. As of the 2015 ACS U.S. Census, there are 605,479 total housing units in the Columbus MSA AA, of which 51.6 percent are owner-occupied, 38.7 percent are rental occupied, and 9.7 percent are vacant units. Families living below the poverty level slightly decreased from 11.6 percent as of 2019-2020 to 11.3 percent in 2021. The median age of housing stock is approximately 45 years. The cost of homeownership in older housing is typically higher than in newer housing; thus, the median age of housing in LMI geographies is also a significant barrier to mortgage lending in those CTs.

Competition for deposits in the AA is strong. As of the June 30, 2021, FDIC Deposit Market Share Report, LCNB held \$113.1 million or 0.13 percent of the deposits inside this market area. This represents 7.2 percent of LCNB's total deposits. As of the June 30, 2021, FDIC Deposit Market Share Report, LCNB ranked 25th out of 40 deposit market competitors. The market is dominated by large financial institutions. The top five financial institutions in deposit market share are The Huntington National Bank, JPMorgan Chase Bank, N.A., PNC Bank, N.A., Fifth Third Bank, N.A., and Bank of America, N.A. These financial institutions hold 87.1 percent of total deposits in the AA.

Less than 10 percent of LCNB's home mortgage lending occurs in the Columbus MSA AA. Based on the 2020 Peer Mortgage Data, LCNB has 0.08 percent of the market share for home mortgages, lending \$33.3 million and ranking 128th among 571 market participants. The market is dominated by large banks and banks with large secondary mortgage market operations. The top five institutions for home mortgage lending are The Huntington National Bank, Union Savings Bank, JPMorgan Chase Bank,

N.A., Quicken Loans, LLC, and U.S. Bank N.A. Combined these five financial institutions have 26.6 percent of the total market share.

There were no farm loans in the Columbus MSA AA during the evaluation period. However, approximately 18 percent of the bank's small business lending occurred in this AA during the evaluation period. Competition for loans is strong. According to the 2020 Peer Small Business Data, 201 lenders originated or purchased small business loans in the AA. The top five institutions for small business lending are JPMorgan Chase Bank, N.A., The Huntington National Bank, U.S. Bank N.A., PNC Bank N.A., and Fifth Third Bank, N.A. The top five competitors hold 70.1 percent of the market share, while LCNB holds 0.31 percent, ranking 24th out of 201 lenders. According to the D&B data as of June 2021, 83.9 percent of the businesses located in the AA have gross annual revenues of \$1 million or less and 66.5 percent have fewer than five employees.

Four community contacts were performed with community service organizations that serve the Columbus MSA AA. The contacts discussed the need for support for financial literacy, utility assistance and food, and general operating support for community service organizations. In terms of specific lending needs, the contacts mentioned affordable housing as a need in the community, as well as support for homeownership counseling. Overall, local financial institutions are adequately meeting the credit and CD needs of the community.

() The NA category consists of geographies that have not been assigned an income classification.*

The Dayton MSA AA includes Montgomery County. There were no changes to the Dayton MSA AA during the evaluation period. As of December 31, 2021, LCNB had three branches with an ATM at each branch in this AA. The Brookville Branch is in a middle-income CT while the Centerville and Oakwood Branches are in upper-income CTs.

Based on the bank's AA and U.S. Census data in the above table, the population in Montgomery County, Ohio, slightly declined by approximately 0.3 percent, from 2010 to 2015, while the state of Ohio population increased about 1 percent. According to the 2015 ACS U.S. Census, the AA consists of 153 CTs, and is comprised of 24 low-income, 36 moderate-income, 63 middle-income, 29 upper-income, and one CT in which the geography has not been assigned any income classification.

The economic conditions in the Dayton MSA AA have improved since the start of the COVID-19 pandemic. However, according to Moody's Analytics, Dayton's recovery is lagging the rest of Ohio and the nation. For 2020, COVID-19 was challenging to the economy with higher-than-normal unemployment rates. According to the U.S. Bureau of Labor Statistics as of December 2021, the not seasonally adjusted unemployment rate in Montgomery County was 3.6, which is the same as the statewide rate of 3.6 percent.

The economy in the Dayton MSA AA is generally diversified with little dependency on one industry. According to Moody's Analytics, top industries include trade, government, professional and business services, education and health services, leisure and hospitality, and manufacturing. Top employers in the area include Wright-Patterson Air Force Base, Premiere Health Partners, Kettering Health Network, Kroger Co., Miami University, and Dayton Children's Hospital.

According to the 2015 ACS U.S. Census, the median housing value of owner-occupied housing units is \$109,005. With median family income of \$61,957, moderate-income families make less than \$49,566 and low-income families make less than \$30,979 annually. Median housing values are at least 2.2 times the annual income of moderate-income families and 3.5 times the annual income of low-income families. Thus, the cost of housing is a barrier to homeownership among LMI families. As of the 2015 ACS U.S. Census, there are 254,415 total housing units in the Dayton MSA AA, of which 53.3 percent are owner-occupied, 34.2 percent are rental occupied, and 12.5 percent are vacant units. Families living below the poverty level was 14.5 percent as referenced in the table above. The median age of housing stock is approximately 58 years. The cost of homeownership in older housing is typically higher than in newer housing; thus, the median age of housing in LMI geographies is also a significant barrier to mortgage lending in those CTs.

Competition for deposits in the AA is strong. As of the June 30, 2021, FDIC Deposit Market Share Report, LCNB held \$160.6 million or 1.34 percent of the deposits inside this market area. This represents 10.2 percent of LCNB's total deposits. As of the June 30, 2021, FDIC Deposit Market Share Report, LCNB ranked 10th out of 20 deposit market competitors. The market is dominated by large financial institutions. The top five financial institutions in deposit market share are Fifth Third Bank, N.A., JPMorgan Chase Bank, N.A., PNC Bank, N.A., Keybank, N.A., and The Huntington National Bank. These financial institutions hold 81.7 percent of total deposits in the AA.

Approximately 8.2 percent of LCNB's home mortgage lending occurs in the Dayton MSA AA. Based on the 2020 Peer Mortgage Data, LCNB has 0.19 percent of the market share for home mortgages, lending \$8.4 million and ranking 68th among 412 market participants. The market is dominated by large banks and banks with large secondary mortgage market operations. The top five institutions for home mortgage lending are Union Savings Bank, Wright-Patt Credit Union, Inc., Fifth Third Bank, N.A., Quicken Loans, LLC, and U.S. Bank N.A. Combined these five financial institutions have 34.3 percent of the total market share.

Very little farm lending occurs in this AA. Approximately 12.1 percent of the small business lending occurs in this AA. Competition for loans is strong. According to the 2020 Peer Small Business Data, 115 lenders originated or purchased small business loans in the AA. The top five institutions for small business lending are PNC Bank, N.A., U.S. Bank N.A., Fifth Third Bank, N.A., JPMorgan Chase Bank, N.A., and The Huntington National Bank. The top five competitors hold 64.9 percent of the market share, while LCNB holds 0.66 percent, ranking 16th out of 115 lenders. According to the D&B data as of June 2021, 81.7 percent of the businesses located in the AA have gross annual revenues of \$1 million or less and 65.9 percent have fewer than five employees.

One community contact was conducted with a community service organization that serves the Dayton MSA AA. The contact mentioned that access to capital for small businesses was a need in the community. Overall, local financial institutions are adequately meeting the credit and CD needs of the community.

Due to rounding, totals may not equal 100.0%.

() The NA category consists of geographies that have not been assigned an income classification.*

The Non-MSA AA includes Clinton, Fayette, Preble, and Ross Counties. There were no changes to the Non-MSA AA during the evaluation period. As of December 31, 2021, LCNB had nine branches with an ATM at each branch. Both Eaton branches and two of the Chillicothe branches are in moderate-income CTs, the Frankfort, Lewisburg, Washington Court House, and Wilmington Branches are in middle-income CTs, and the Chillicothe Branch on Western Avenue is in an upper-income CT.

Based on the bank's AA and U.S. Census data in the above table, the population in the Non-MSA AA declined by approximately 0.9 percent, from 2010 to 2015, while the state of Ohio population increased about 1 percent. According to the 2015 ACS U.S. Census, the AA consists of 45 CTs, and is comprised of 10 moderate-income, 29 middle-income, and six upper-income CTs.

The economic conditions in the Non-MSA AA have improved since the start of the COVID-19 pandemic and are overall stable. For 2020, COVID-19 was challenging to the economy with higher-than-normal unemployment rates. According to the U.S. Bureau of Labor Statistics as of December 2021, not seasonally adjusted unemployment rates in Clinton, Fayette, Preble, and Ross Counties were 3.6 percent, 3.1 percent, 2.9 percent, and 3.6 percent, respectively. These unemployment rates compare reasonably to the statewide rate of 3.6 percent.

The AA has a relatively diverse employer base with many industries including manufacturing, transportation and warehousing, health care and social assistance, retail trade, and educational services. Top employers in Clinton County include R&L Carriers, Ahresty Wilmington Corp., and American Showa. Large employers in Fayette County include Cargill, Inc., Domtar Paper Co., and Fayette County Memorial Hospital. Primary employers in Preble County include Neaton Auto Products Manufacturing, Inc. and Henny Penny. Large employers in Ross County include Kenworth Truck Company, Pixelle Specialty Products, and YSK Corporation.

According to the 2015 ACS U.S. Census, the median housing value of owner-occupied housing units is \$112,104. With median family income of \$55,785, moderate-income families make less than \$44,628 and low-income families make less than \$27,893 annually. Median housing values are at least 2.5 times the annual income of moderate-income families and 4.0 times the annual income of low-income families. Thus, the cost of housing is a significant barrier to homeownership among LMI families. As of the 2015 ACS U.S. Census, there are 80,499 total housing units in the Non-MSA AA, of which 62.1 percent are owner-occupied, 27.4 percent are rental occupied, and 10.5 percent are vacant units. Families living below the poverty level was 13 percent as referenced in the table above. The median age of housing stock is approximately 50 years. The cost of homeownership in older housing is typically higher than in newer housing; thus, the median age of housing in LMI geographies is also a significant barrier to mortgage lending in those CTs.

Competition for deposits in the AA is strong. As of the June 30, 2021, FDIC Deposit Market Share Report, LCNB held \$371.3 million or 11.2 percent of the deposits inside this market area. This represents 23.5 percent of LCNB's total deposits. As of the June 30, 2021, FDIC Deposit Market Share Report, LCNB ranked first out of 22 deposit market competitors. The market is dominated by large financial institutions and other community banks. The top four financial institutions, behind LCNB, in

deposit market share are Fifth Third Bank, N.A., The Huntington National Bank, Kingston National Bank, and Peoples Bank. These four financial institutions hold 37.2 percent of total deposits in the AA.

Approximately 28.6 percent of LCNB's home mortgage lending occurs in the Non-MSA AA. Based on the 2020 Peer Mortgage Data, LCNB has 2.8 percent of the market share for home mortgages, lending \$23.9 million and ranking 8th among 284 market participants. The market is dominated by large banks. The top five institutions for home mortgage lending are The Huntington National Bank, Fifth Third Bank, N.A., U.S Bank N.A., Quicken Loans, LLC, and Merchants National Bank. Combined these five financial institutions have 22.5 percent of the total market share.

Almost 73 percent of LCNB's farm lending occurs in this AA. According to the 2020 Peer Small Farm Data, 21 lenders originated or purchased small farm loans in the AA. The top five institutions for small farm lending are LCNB, Peoples Bank, Merchants Bank of Indiana, The Huntington National Bank, and U.S. Bank, N.A. The top four competitors, other than LCNB, hold 42.4 percent of the market share, while LCNB holds 29.3 percent, ranking first out of 21 lenders. According to the D&B data as of June 2021, 98.1 percent of the farms located in the AA have gross annual revenues of \$1 million or less.

Almost 20 percent of the small business lending occurs in this AA. Competition for loans is strong. According to the 2020 Peer Small Business Data, 81 lenders originated or purchased small business loans in the AA. The top five institutions for small business lending are The Huntington National Bank, U.S. Bank, N.A., Fifth Third Bank, N.A., PNC Bank, N.A., and American Express National Bank. The top five competitors hold 55.6 percent of the market share, while LCNB holds 5.8 percent, ranking ninth out of 81 lenders. According to the D&B data as of June 2021, 78.4 percent of the businesses located in the AA have gross annual revenues of \$1 million or less and 67.1 percent have fewer than five employees.

Five community contacts were conducted with community service organizations that serve the Non-MSA AA. The contacts mentioned financial education, funds for emergency shelters and services, low-cost rehabilitation financing, funds for the food pantries, and general operating support for community organizations as needs in the community. Specific to credit needs, the contacts mentioned affordable housing and SBA loans as credit needs in the AA. Overall, local financial institutions are adequately meeting the credit and CD needs of the community.

Scope of Evaluation in Ohio

LCNB was evaluated using the large bank CRA examination procedures to assess the bank's record of meeting the credit and CD needs of its AAs. Large bank procedures include a Lending Test, Investment Test, and Service Test.

For the Lending Test, the OCC evaluated home mortgage loans reported under the HMDA and small loans to businesses and farms reported under the CRA. The evaluation period is January 1, 2019, to December 31, 2021. Under the Lending Test, the OCC performed separate analyses of the 2019 through 2020 data and 2021 data due to a change in the Cincinnati MMSA AA and Columbus MSA AA in 2021 to include whole counties in the AAs. LCNB did not change its lending strategy during the two analysis periods.

The OCC completed full-scope reviews for each AA. Greater weight was given to the performance in the Cincinnati MMSA AA since the majority of the bank's operations are located in that AA. See appendix A for a list of AAs under review.

Conclusions in Respect to Performance Tests in Ohio

Lending Test

The bank's performance under the Lending Test in Ohio is rated **High Satisfactory**.

Conclusions for Areas Receiving Full-Scope Reviews

Based on full-scope reviews, the bank's performance in the full-scope AAs is good.

Lending Activity

Lending levels reflect good responsiveness to AA credit needs.

*The tables present the data for all assessment areas. The narrative below addresses performance in full-scope areas only.

In drawing the overall conclusion, the OCC considered the bank's lending strategy focus, and the fact that there are considerably more lenders originating or purchasing loans in the AAs than there are depository institutions with branch offices. Lenders include local and non-local depository institutions, as well as non-bank financial institutions.

Cincinnati MMSA AA

Lending levels in the Cincinnati MMSA AA reflect good responsiveness to AA credit needs. During the evaluation period, LCNB originated 813 home mortgage loans totaling \$215.5 million and 694 small business loans totaling \$95.6 million. Based on the FDIC Deposit Market Share Report from June 30, 2021, there were 46 deposit-taking institutions with one or more banking offices in the AA. The bank ranked 10th with a deposit market share of 0.64 percent, which is equivalent to the top 22 percent of banks in the AA.

Given the competition from other reporting lenders in the AA, LCNB's lending market share is good compared to its deposit market share in the AA. Aggregate home mortgage data for 2020 indicates the bank's 0.44 percent market share ranked 50th among 564 lenders that reported home mortgage loans. This ranking is the equivalent to the top 9 percent of lenders in the AA. The top five institutions have a combined market share of 27.7 percent and are larger regional banks or mortgage lending businesses. Aggregate business lending data for 2020 shows the bank's 0.64 percent market share ranked 18th among 186 lenders that reported business loans. This ranking is the equivalent to the top 10 percent of reporting lenders in the AA. The top five business lenders are large banks which account for 69.2 percent of the market.

Columbus MSA AA

Lending levels in the Columbus MSA AA reflect good responsiveness to AA credit needs. During the evaluation period, LCNB originated 145 home mortgage loans totaling \$114.0 million and 247 small business loans totaling \$66.9 million. Based on the FDIC Deposit Market Share Report from June 30, 2021, there were 40 deposit-taking institutions with one or more banking offices in the AA. The bank ranked 25th with a deposit market share of 0.13 percent, which is equivalent to the top 63 percent of banks in the AA.

Given the competition from other reporting lenders in the AA, LCNB's lending market share is good compared to its deposit market share in the AA. Aggregate home mortgage data for 2020 indicates the bank's 0.08 percent market share ranked 128th among 571 lenders that reported home mortgage loans. This ranking is the equivalent to the top 22 percent of lenders in the AA. The top five institutions have a combined market share of 26.6 percent and are larger regional banks or mortgage lending businesses. Aggregate business lending data for 2020 shows the bank's 0.31 percent market share ranked 24th among 201 lenders that reported business loans. This ranking is the equivalent to the top 12 percent of

reporting lenders in the AA. The top five business lenders are large banks which account for 70.1 percent of the market.

Dayton MSA AA

Lending levels in the Dayton MSA AA reflects adequate responsiveness to AA credit needs. During the evaluation period, LCNB originated 125 home mortgage loans totaling \$23.5 million and 166 small business loans totaling \$29.3 million. Based on the FDIC Deposit Market Share Report from June 30, 2021, there were 20 deposit-taking institutions with one or more banking offices in the AA. The bank ranked 10th with a deposit market share of 1.3 percent, which is equivalent to the top 50 percent of banks in the AA.

Given the competition from other reporting lenders in the AA, LCNB's lending market share is good compared to its deposit market share in the AA. Aggregate home mortgage data for 2020 indicates the bank's 0.19 percent market share ranked 68th among 412 lenders that reported home mortgage loans. This ranking is the equivalent to the top 17 percent of lenders in the AA. The top five institutions have a combined market share of 34.3 percent and are larger regional banks, credit unions, or mortgage lending businesses. Aggregate business lending data for 2020 shows the bank's 0.66 percent market share ranked 16th among 115 lenders that reported business loans. This ranking is the equivalent to the top 14 percent of reporting lenders in the AA. The top five business lenders are large banks which account for 64.9 percent of the market.

Non-MSA AA

Lending levels in the Non-MSA AA reflect good responsiveness to AA credit needs. During the evaluation period, LCNB originated 434 home mortgage loans totaling \$58.1 million, 269 small business loans totaling \$31.9 million, and 105 small farm loans totaling \$17.8 million. Based on the FDIC Deposit Market Share Report from June 30, 2021, there were 22 deposit-taking institutions with one or more banking offices in the AA. The bank ranked first with a deposit market share of 11.2 percent.

Given the competition from other reporting lenders in the AA, LCNB's lending market share is good compared to its deposit market share in the AA. Aggregate home mortgage data for 2020 indicates the bank's 2.8 percent market share ranked 8th among 284 lenders that reported home mortgage loans. This ranking is the equivalent to the top 3 percent of lenders in the AA. The top five institutions have a combined market share of 22.5 percent and are larger regional banks or mortgage lending businesses. Aggregate business lending data for 2020 shows the bank's 5.8 percent market share ranked ninth among 81 lenders that reported business loans. This ranking is the equivalent to the top 11 percent of reporting lenders in the AA. The top five business lenders are large banks which account for 55.6 percent of the market. Aggregate farm lending data for 2020 shows the bank's 29.3 percent market share ranked first among 21 lenders that reported farm loans. The top five farm lenders account for 71.7 percent of the market.

Distribution of Loans by Income Level of the Geography

The bank exhibits an adequate geographic distribution of loans in its AAs.

Home Mortgage Loans

The bank's geographic distribution of home mortgage loans is adequate.

Refer to Table O in the state of Ohio section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

The OCC compared the percentage of home mortgage loans originated or purchased by the bank to the percentage of owner-occupied housing units (demographic data) in the four geographic income categories, placing emphasis on the LMI geographies. The OCC also compared the bank's performance against the percentage of home mortgage loans of other mortgage lenders (aggregate data) in the AA, as demonstrated by HMDA aggregate data.

In determining the ratings, the OCC weighed demographic factors of the AA that could affect the bank's ability to lend. These factors include competition from larger institutions, the number of LMI geographies, branch presence, area demographics, and the location of most owner-occupied housing.

Cincinnati MMSA AA

The geographic distribution of home mortgage loans in the Cincinnati MMSA AA is adequate.

The OCC considered that better lending opportunities exist in middle- and upper-income CTs within the AA. According to the 2015 ACS U.S. Census, LMI CTs contained only 19.2 percent of owner-occupied housing units in the bank's 2021 Cincinnati MMSA AA. And while single family homes comprise 62 percent in low-income CTs and 75.4 percent in moderate-income CTs of the total housing units, only 21.3 percent in low-income CTs and 43.6 percent in moderate-income CTs are owner-occupied. In low-income CTs, this represents only 10,153 housing units, which affects the bank's lending opportunities due to the level of competition in the AA.

During 2019 and 2020, the proportion of LCNB's home mortgage loans in low-income CTs at 1 percent is below both the percentage of owner-occupied housing units (demographic data) of 4.4 percent and the aggregate home mortgage lending percentage (aggregate data) of 2.4 percent. The proportion of the bank's home mortgage lending in moderate-income CTs at 5.2 percent is well below the demographic data of 14.1 percent and below the aggregate data of 9.7 percent.

In 2021, the proportion of LCNB's home mortgage loans in low-income CTs at 3.8 percent is near to the demographic data of 4.1 percent and exceeds the aggregate data of 2.5 percent. The proportion of the bank's home mortgage lending in moderate-income CTs at 9.3 percent is below the demographic data of 15.1 percent but near the aggregate data of 11.2 percent.

The majority of LCNB's branches are in Warren County, while the southwestern part of the AA (Hamilton County) contains a significant number of the AA's LMI CTs. The bank had two branches in Hamilton County during the evaluation period, with one branch closing in February 2022. This leads to a competitive disadvantage with several large financial institutions located there and demonstrates the effect competition and limited owner-occupied housing have on the bank's ability to originate residential mortgages within LMI CTs in the AA.

Columbus MSA AA

The geographic distribution of home mortgage loans in the Columbus MSA AA is excellent.

The OCC considered that better lending opportunities exist in middle- and upper-income CTs within the AA. According to the 2015 ACS U.S. Census, LMI CTs contained only 25.3 percent of owner-occupied housing units in the bank's 2021 Columbus MSA AA. And while single family homes comprise approximately 70 percent of housing units in both low- and moderate-income CTs, only 22.6 percent in low-income CTs and 40.9 percent in moderate-income CTs are owner-occupied. In low-income CTs, this represents only 13,938 housing units, which affects the bank's lending opportunities due to the level of competition in the AA.

During 2019 and 2020, the proportion of LCNB's home mortgage loans in low-income CTs at 17.5 percent significantly exceeds both the demographic data of 6.6 percent and the aggregate data of 5 percent. The proportion of the bank's home mortgage lending in moderate-income CTs at 15.5 percent is below the demographic data of 19.7 percent but exceeds the aggregate data of 14.6 percent.

In 2021, the proportion of LCNB's home mortgage loans in low-income CTs at 6.3 percent is near to the demographic data of 6.4 percent and exceeds the aggregate data of 4.7 percent. The proportion of the bank's home mortgage lending in moderate-income CTs at 14.6 percent is below the demographic data of 18.9 percent but exceeds the aggregate data of 13.9 percent.

Dayton MSA AA

The geographic distribution of home mortgage loans in the Dayton MSA AA is adequate.

The OCC considered that better lending opportunities exist in middle- and upper-income CTs within the AA. According to the 2015 ACS U.S. Census, LMI CTs contained only 26.6 percent of owner-occupied housing units. And while single family homes comprise 80.7 percent in low-income CTs and 76.9 percent in moderate-income CTs of total housing units, only 29 percent in low-income CTs and 42 percent in moderate-income CTs are owner-occupied. In low-income CTs, this represents only 9,295 housing units, which affects the bank's lending opportunities due to the level of competition in the AA.

The proportion of LCNB's home mortgage loans in low-income CTs at 3.2 percent is below the demographic data of 8.5 percent and exceeds the aggregate data of 3 percent. The proportion of the bank's home mortgage lending in moderate-income CTs at 3.2 percent is significantly below both the demographic data of 18.1 percent and the aggregate data of 12.6 percent.

None of LCNB's three branches in Montgomery County are near to the AAs' LMI CTs, which are mostly in the Dayton downtown area. Significant competition for loans exists mainly from larger, regional banks.

Non-MSA AA

The geographic distribution of home mortgage loans in the Non-MSA AA is overall adequate.

The OCC considered that the AA contains no low-income CTs and moderate-income CTs contain only 18.1 percent of the owner-occupied housing units in the AA. And while single family homes comprise

83.4 percent of housing units in moderate-income CTs, only 48.1 percent in moderate-income CTs are owner-occupied. This represents only 7,536 housing units, which affects the bank's lending opportunities due to the level of competition in the AA. Four of the bank's nine branches in the AA are in moderate-income CTs. Additionally, the median age of housing stock in this AA is approximately 50 years, with the median age of housing in moderate-income CTs at 55 years. The cost of homeownership in older housing is typically higher than in newer housing; thus, the median age of housing in the LMI geographies is also a significant barrier to mortgage lending in those CTs.

The proportion of LCNB's home mortgage loans in moderate-income CTs at 10.4 percent is well below the demographic data of 18.1 percent and below the aggregate data of 16.9 percent, but is overall considered adequate.

Small Loans to Businesses

The bank's geographic distribution of small loans to businesses is good.

Refer to Table Q in the state of Ohio section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

The OCC compared the percentage of the number of small loans to businesses originated by the bank in the four geographic income categories (low-, moderate-, middle-, and upper-income) to the distribution of businesses throughout those geographies (demographic data), placing emphasis on the LMI geographies. The OCC also compared the bank's performance against the percentage of small loans to businesses of other lenders (aggregate data), as demonstrated by CRA aggregate data.

In determining the conclusions, the OCC gave consideration for opportunities to lend based on the number of CTs in each income level, the level of competition, and the number of non-farm businesses located in LMI CTs within each AA.

Cincinnati MMSA AA

LCNB's distribution of small loans to businesses in the Cincinnati MMSA AA is good. In the analysis, the OCC considered that better lending opportunities exist in middle- and upper-income CTs within the AA. According to 2021 D&B data, LMI CTs contained 25.4 percent of businesses in the AA.

During 2019 and 2020, the proportion of LCNB's small loans to businesses in low-income CTs at 3.4 percent is well below both the percentage of businesses (demographic data) of 8.3 percent and the aggregate small loans to business lending percentage (aggregate data) of 7.5 percent. The proportion of the bank's small loans to businesses in moderate-income CTs at 20.6 percent exceeds both the demographic data of 14.8 percent and aggregate data of 13.3 percent.

In 2021, the proportion of LCNB's small loans to businesses in low-income CTs at 3.2 percent is below both the demographic data of 7.4 percent and the aggregate data of 7 percent. The proportion of the bank's small loans to businesses in moderate-income CTs at 19.2 percent exceeds both the demographic data of 18 percent and the aggregate data of 16.8 percent.

Columbus MSA AA

LCNB's distribution of small loans to businesses in the Columbus MSA AA is good. In the analysis, the OCC considered that better lending opportunities exist in middle- and upper-income CTs within the AA. According to 2021 D&B data, LMI CTs contained 28.2 percent of businesses in the AA.

During 2019 and 2020, the proportion of LCNB's small loans to businesses in low-income CTs at 9.2 percent is near to the percentage of businesses of 10.7 percent and exceeds the aggregate data of 8.9 percent. The proportion of the bank's small loans to businesses in moderate-income CTs at 11.6 percent is below both the percentage of businesses of 18.1 percent and aggregate data of 15.3 percent.

In 2021, the proportion of LCNB's small loans to businesses in low-income CTs at 10.8 percent exceeds the percentage of businesses of 10.4 percent and aggregate data of 8.7 percent. The proportion of the bank's small loans to businesses in moderate-income CTs at 12.2 percent is below the percentage of businesses of 17.8 percent but near the aggregate data of 14.8 percent.

Dayton MSA AA

LCNB's distribution of small loans to businesses in the Dayton MSA AA is adequate. In the analysis, the OCC considered that better lending opportunities exist in middle- and upper-income CTs within the AA. According to 2021 D&B data, LMI CTs contained 30 percent of businesses in the AA.

The proportion of LCNB's small loans to businesses in low-income CTs at 2.4 percent is significantly below both the percentage of businesses of 10.2 percent and the aggregate data of 9.5 percent. However, the proportion of the bank's small loans to businesses in moderate-income CTs at 20.5 percent exceeds both the percentage of businesses of 19.8 percent and aggregate data of 18.9 percent.

None of LCNB's three branches in Montgomery County are near to the AAs' LMI CTs, which are mostly in the Dayton downtown area. Significant competition for loan exists mainly from larger, regional banks.

Non-MSA AA

LCNB's distribution of small loans to businesses in the Non-MSA AA is good. We considered that the AA contains no low-income CTs and moderate-income CTs contain 33.9 percent of the businesses in the AA.

The proportion of the bank's small loans to businesses in moderate-income CTs at 30.5 percent is below the percentage of businesses of 33.9 percent and just slightly below the aggregate data of 30.8 percent.

Small Loans to Farms

The bank's geographic distribution of small loans to farms is adequate. However, as this is not a primary product for the bank and due to limited lending volume, small farm lending has a neutral impact on the overall geographic rating.

Refer to Table S in the state of Ohio section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

The OCC compared the percentage of the number of small loans to farms originated by the bank in the four geographic income categories (low-, moderate-, middle-, and upper-income) to the distribution of farms throughout those geographies (demographic data), placing emphasis on the LMI geographies. The OCC also compared the bank's performance against the percentage of small loans to farms of other lenders (aggregate data), as demonstrated by CRA aggregate data.

In determining the conclusions, the OCC gave consideration for opportunities to lend based on the number of CTs in each income level, the level of competition, and the number of farms located in LMI CTs within each AA.

Cincinnati MMSA AA

LCNB's distribution of small loans to farms in the Cincinnati MMSA AA is poor. In the analysis, the OCC considered that this AA is largely urban or suburban, limiting opportunities for farm lending. According to 2020 and 2021 D&B data, LMI CTs contained only 252 farms in 2019-2020 and 527 farms in 2021.

During 2019 and 2020, LCNB did not originate any small loans to farms in LMI CTs. In 2021, the bank did not make a sufficient volume of small loans to farms to allow for meaningful quantitative analysis. However, farm lending is not a primary product in the Cincinnati MMSA AA.

Columbus MSA AA

LCNB's origination volume of farm loans in the Columbus MSA AA were not sufficient to allow for meaningful quantitative analysis. As a result, farm loans in this AA were not included in the evaluation. This AA is largely urban or suburban, limiting opportunities for farm lending.

Dayton MSA AA

LCNB's origination volume of farm loans in the Dayton MSA AA were not sufficient to allow for meaningful quantitative analysis. As a result, farm loans in this AA were not included in the evaluation. This AA is largely urban or suburban, limiting opportunities for farm lending.

Non-MSA AA

LCNB's distribution of small loans to farms in the Non-MSA AA is excellent. In the analysis, the OCC considered that this AA has no low-income CTs, limiting opportunities for farm lending. According to 2020 D&B data, moderate-income CTs contained only 115 farms during the evaluation period.

The proportion of the bank's small loans to farms in moderate-income CTs at 10.5 percent is near to the percentage of farms of 13.4 percent and significantly exceeds the aggregate small loans to farms lending percentage (aggregate data) of 5.8 percent. As noted above, LCNB is ranked first out of 21 lenders in small loans to farms as of the 2020 Peer Small Farm Data in the Non-MSA AA, with LCNB holding 29.3 percent of the total market share. A majority of the bank's farm lending is in the Non-MSA AA.

Lending Gap Analysis

The OCC evaluated the lending distribution in the full-scope AAs to determine if any unexplained, conspicuous gaps existed. The OCC reviewed summary reports, maps, and analyzed the bank's lending activity over the evaluation period to identify any gaps in the geographic distribution of loans. The OCC did not identify any unexplained, conspicuous gaps.

Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business and farms of different sizes, given the product lines offered by the institution.

Home Mortgage Loans

LCNB's distribution of home mortgage loans among borrowers of different income levels is excellent.

Refer to Table P in the state of Ohio section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

The OCC compared the percentage of home mortgage loans originated or purchased by the bank to low-, moderate-, middle-, and upper-income borrowers to the percentage distribution of families by income level (demographic data), placing emphasis on lending to LMI families. The OCC also compared the bank's performance against home mortgage loans of other home mortgage lenders (aggregate data), as demonstrated by HMDA aggregate data.

In evaluating the borrower distribution of home mortgage loans, the OCC considered the level of competition and its effect on limiting the bank's ability to lend to borrowers of different incomes, as well as the economic conditions in the AAs. The OCC also considered the percentage of families that live below the poverty level, and the barriers this creates for these families to qualify for home mortgage financing.

Cincinnati MMSA AA

LCNB's distribution of home mortgage loans among borrowers of different income levels throughout the Cincinnati MMSA AA is excellent.

For 2019 and 2020, the proportion of the bank's home mortgage loans to low-income borrowers at 8 percent exceeds the aggregate lending percentage of 7 percent. Though the bank's percentage of home mortgage loans is significantly below the 21.2 percent of low-income families in the AA (demographic data), the bank's level of lending in comparison to the demographic comparator is reasonable given that 9.8 percent of the families in the AA are living below the poverty level. The bank's proportion of home mortgage lending to moderate-income borrowers at 18.5 percent exceeds both demographic data of 16 percent and the aggregate data of 16.2 percent.

In 2021 the bank's proportion of home mortgage loans to low-income borrowers at 6.2 percent is near the aggregate data of 6.7 percent and significantly below the 22.3 percent of low-income families in the AA. Given that the poverty level is 10.5 percent, LCNB's level of lending to low-income borrowers is

reasonable. The bank's proportion of loans to moderate-income borrowers at 15.2 percent is near to both the demographic data of 16.1 percent and aggregate data of 15.9 percent.

Columbus MSA AA

LCNB's distribution of home mortgage loans among borrowers of different income levels throughout the Columbus MSA AA is poor.

For 2019 and 2020, the proportion of the bank's home mortgage loans to low-income borrowers at 1 percent is below the aggregate data of 6.6 percent. And both the bank and aggregate percentages of home mortgage loans are significantly below the 22.9 percent of low-income families in the AA. The bank's proportion of home mortgage lending to moderate-income borrowers at 2.1 percent is significantly below both the percentage of moderate-income families in the AA at 16.7 percent and the aggregate data of 16.3 percent.

In 2021 the bank's proportion of home mortgage loans to low-income borrowers at 8.3 percent exceeds the aggregate lending percentage of 6.4 percent and is significantly below the 22.5 percent of low-income families in the AA. Given that the poverty level is 11.3 percent, LCNB's level of lending to low-income borrowers is reasonable. The bank did not make any loans to moderate-income borrowers during 2021. Per the bank's HMDA data, 52.1 percent of loans originated did not have income reported. This is due to the significant number of investment property loans secured by 1-4 family homes.

Dayton MSA AA

LCNB's distribution of home mortgage loans among borrowers of different income levels throughout the Dayton MSA AA is excellent.

The proportion of the bank's home mortgage loans to low-income borrowers at 13.6 percent exceeds the aggregate data of 8.2 percent. Though the bank's percentage of home mortgage loans is significantly below the 25.5 percent of low-income families in the AA, the bank's level of lending in comparison to the demographic comparator is reasonable given that 14.5 percent of the families in the AA are living below the poverty level. The bank's proportion of home mortgage lending to moderate-income borrowers at 20 percent exceeds both demographic data of 17.8 percent and aggregate data of 19 percent.

Non-MSA AA

LCNB's distribution of home mortgage loans among borrowers of different income levels throughout the Non-MSA AA is excellent.

The proportion of the bank's home mortgage loans to low-income borrowers at 7.8 percent exceeds the aggregate lending percentage of 5.2 percent. Though the bank's percentage of home mortgage loans is significantly below the 21.7 percent of low-income families in the AA, the bank's level of lending in comparison to the demographic comparator is reasonable given that 13 percent of the families in the AA are living below the poverty level. The bank's proportion of home mortgage lending to moderate-income borrowers at 18.9 percent is near to the percentage of moderate-income families in the AA at 19 percent and exceeds the aggregate lending data of 17 percent.

Small Loans to Businesses

LCNB's borrower distribution of small loans to businesses of different sizes is adequate.

Refer to Table R in the state of Ohio section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

The OCC compared the percentage distribution of the number of small loans to businesses originated by the bank by gross annual revenue level to businesses with gross annual revenues of \$1 million or less (demographic data). The OCC also compared the bank's performance to aggregate small business data (aggregate data), as demonstrated by CRA aggregate data.

In evaluating the borrower distribution of loans to businesses of different sizes, the OCC considered the level of competition and its effect on limiting the bank's ability to lend, as well as the economic conditions in the AA.

Cincinnati MMSA AA

LCNB's borrower distribution of small loans to small businesses in the Cincinnati MMSA AA is adequate.

During 2019 and 2020, the bank originated 43.1 percent of its small loans to businesses with revenues of \$1 million or less. In comparison, the bank's percentage is below the percentage of businesses with revenues of \$1 million or less (demographic data) at 83.7 percent but is near the aggregate lending percentage of small loans to businesses (aggregate data) of 43.8 percent. In 2021, the bank originated 21.7 percent of its small loans to businesses with revenues of \$1 million or less, which is significantly below the percentage of businesses with revenues of \$1 million or less at 82.1 percent and the aggregate lending percentage of small loans to businesses of 43.5 percent. However, the bank's lending to borrowers with gross revenues not available were 64.8 percent. The majority of the loans to businesses without revenues available were SBA PPP loans.

Columbus MSA AA

LCNB's borrower distribution of small loans to small businesses in the Columbus MSA AA is adequate.

During 2019 and 2020, the bank originated 45.1 percent of its small loans to businesses with revenues of \$1 million or less. In comparison, the bank's percentage is below the percentage of businesses with revenues of \$1 million or less at 83.8 percent but exceeds the aggregate lending percentage of small loans to small businesses of 41.7 percent. In 2021, the bank originated 36.5 percent of its small loans to businesses with revenues of \$1 million or less, which is below the percentage of businesses with revenues of \$1 million or less at 83.9 percent and below the aggregate lending percentage of small loans to small businesses of 41.9 percent. The OCC noted that 25.7 percent of the loans were to businesses with income not available, with the majority being SBA PPP loans.

Dayton MSA AA

LCNB's borrower distribution of small loans to small businesses in the Dayton MSA AA is adequate.

The bank originated 37.3 percent of its small loans to businesses with revenues of \$1 million or less. In comparison, the bank's percentage is below the percentage of businesses with revenues of \$1 million or less at 81.7 percent and below the aggregate lending percentage of small loans to businesses of 40.5 percent. The OCC noted that 41.6 percent of the loans were to businesses with income not available, with the majority being SBA PPP loans.

Non-MSA AA

LCNB's borrower distribution of small loans to small businesses in the Non-MSA AA is adequate.

The bank originated 35.7 percent of its small loans to businesses with revenues of \$1 million or less. In comparison, the bank's percentage is below the percentage of businesses with revenues of \$1 million or less at 78.4 percent and below the aggregate lending percentage of small loans to small businesses of 37.4 percent. The OCC noted that 45 percent of the loans were to businesses with income not available, with the majority being SBA PPP loans.

Small Loans to Farms

The bank's borrower distribution of small loans to farms is excellent. However, as this is not a primary product for the bank and due to limited lending volume, small farm lending has a neutral impact on the overall lending rating.

Refer to Table T in the state of Ohio section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to farms.

The OCC compared the percentage distribution of the number of small loans to farms originated by the bank by gross annual revenue level to farms with gross annual revenues of \$1 million or less (demographic data). The OCC also compared the bank's performance to aggregate small farm data (aggregate data), as demonstrated by CRA aggregate data.

Cincinnati MMSA AA

LCNB's borrower distribution of small loans to farms in the Cincinnati MMSA AA is excellent. In the analysis, the OCC considered that this AA is largely urban or suburban, limiting opportunities for farm lending.

During 2019 and 2020, the bank originated 90 percent of its small loans to farms with revenues of \$1 million or less. In total, the bank only originated 20 small loans to farms in 2019 – 2020. In comparison, the bank's percentage is near the percentage of farms with revenues of \$1 million or less at 96.3 percent and significantly exceeds the aggregate lending percentage of small loans to farms of 69.5 percent. In 2021, the bank did not make a sufficient volume of small loans to farms to allow for meaningful quantitative analysis.

Columbus MSA AA

LCNB's origination volume of farm loans in the Columbus MSA AA were not sufficient to allow for meaningful quantitative analysis. As a result, farm loans in this AA were not included in the evaluation. This AA is largely urban or suburban, limiting opportunities for farm lending.

Dayton MSA AA

LCNB's origination volume of farm loans in the Dayton MSA AA were not sufficient to allow for meaningful quantitative analysis. As a result, farm loans in this AA were not included in the evaluation. This AA is largely urban or suburban, limiting opportunities for farm lending.

Non-MSA AA

LCNB's borrower distribution of small loans to farms in the Non-MSA AA is excellent.

The bank originated 81.9 percent of its small loans to farms with revenues of \$1 million or less. In comparison, the bank's percentage is below the percentage of farms with revenues of \$1 million or less at 98.1 percent but significantly exceeds the aggregate lending percentage of small loans to farms of 51 percent. A majority of the bank's farm lending is in the Non-MSA AA.

Community Development Lending

The institution is a leader in making CD loans.

The Lending Activity Tables, shown above under Lending Activity on pages 17 and 18, set forth the information and data used to evaluate the institution's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

During the evaluation period, the bank originated 36 qualifying CD loans within its AAs, totaling \$71.5 million and representing 40.7 percent of total tier 1 capital.

Cincinnati MMSA AA

LCNB's CD lending within the Cincinnati MMSA AA is excellent. The bank originated 18 qualified CD loans totaling \$34.6 million, representing 33.3 percent of allocated tier 1 capital based on total deposits in the AA. A majority of the CD loans helped revitalize or stabilize LMI geographies. Examples of CD loans in the AA include:

- Three loans totaling \$8.7 million to a manufacturing plant located in a low-income CT. The company is considered an anchor in the community and employs area residents.
- A \$7.9 million SBA Certified Development Company 504 loan for a brewery.
- A \$3.3 million construction loan to expand a business located in a moderate-income CT, creating new job opportunities for area residents.
- A \$2.5 million construction loan to build apartments in a low-income CT as part of the city of Hamilton's revitalization plan.
- Two loans totaling \$1.3 million for refinancing the city of Cincinnati Development Fund loans for the renovation of affordable housing properties in low-income CTs.

- A \$246,000 loan to an organization, located in a moderate-income CT, that provides affordable housing for developmentally disabled, addicted, or homeless populations.

Columbus MSA AA

LCNB's CD lending within the Columbus MSA AA is excellent. The bank originated 14 qualified CD loans totaling \$34.9 million, representing 277.7 percent of allocated tier 1 capital based on total deposits in the AA. A majority of the CD loans helped revitalize and stabilize LMI geographies and provided economic development within the AA. Examples of CD loans in the AA include:

- A \$10 million loan for construction of a mixed-use property located in a low-income CT. The project is in a neighborhood designated by the city of Columbus for redevelopment/revitalization.
- Two loans totaling \$5.9 million under the SBA Certified Development Company 504 loan program for the purchase of a hotel.
- A \$1.2 million loan to acquire office and warehouse space in a moderate-income CT which will promote economic development and employ area residents.
- A \$975,000 loan to purchase an affordable housing multifamily building which has received funding, in part, through the Low-Income Housing Tax Credit (LIHTC) program.
- A \$122,000 loan to refinance a loan for an affordable housing multiunit property located in a low-income CT.

Dayton MSA AA

LCNB's CD lending within the Dayton MSA AA is adequate. The bank originated two qualified CD loans totaling \$356,250, representing 2 percent of allocated tier 1 capital based on total deposits in the AA. Both loans were for multifamily affordable housing in LMI CTs.

Non-MSA AA

LCNB's CD lending within the Non-MSA AA is adequate. The bank originated two qualified CD loans totaling \$1.7 million, representing 4 percent of allocated tier 1 capital based on total deposits in the AA. One loan for \$1 million was for multifamily affordable housing in a moderate-income CT. The other loan for \$621,187 was made as part of the United States Department of Agriculture (USDA) Beginning Farmer and Rancher Loan program in a moderate-income CT.

Statewide/Regional

LCNB is adequately responsive to the CD needs in its AAs so additional consideration was given to seven CD loans, totaling \$5.8 million, in the broader regional areas. Five loans were for affordable housing properties in LMI CTs and two loans were SBA 504 loans for the purchase of commercial real

estate. Statewide/Regional CD development lending equated to 3.3 percent of the bank's total tier 1 capital.

Product Innovation and Flexibility

The institution makes use of innovative and/or flexible lending practices in order to serve AA credit needs.

Paycheck Protection Program (PPP)

The bank made use of responsive flexible lending during the COVID-19 pandemic in 2020 and 2021 by originating loans to stabilize small businesses and communities through the SBA PPP. According to internal bank records, the bank originated 359 PPP loans totaling \$39.6 million in the Cincinnati MMSA AA, 59 PPP loans totaling \$5.7 million in the Columbus MSA AA, 70 PPP loans totaling \$9.3 million in the Dayton MSA AA, 127 PPP loans totaling \$7.9 million in the Non-MSA AA, and 58 PPP loans totaling \$6.8 million outside the bank's AAs. This activity received positive consideration as it provided stabilization of small businesses and communities.

Covid-19 Emergency Loan Assistance

During the COVID-19 pandemic, LCNB offered emergency hardship assistance to both consumer and business customers through payment deferrals. According to internal bank reports, LCNB approved 613 loan deferrals totaling \$3.9 million in deferred interest during the evaluation period.

Unsecured Home Improvement Loans

LCNB identified availability of loans for home improvements as a need within its communities and offered an unsecured home improvement loan to help homeowners maintain their homes without the need for additional collateral. These are typically smaller dollar loans. According to internal bank reports, LCNB originated 54 unsecured home improvement loans during the evaluation period, with the majority in the Non-MSA AA. Overall, the bank originated approximately 16.7 percent of these loans in LMI CTs and 24.1 percent to LMI borrowers.

Investment Test

The bank's performance under the Investment Test in Ohio is rated High Satisfactory.

Conclusions for Areas Receiving Full-Scope Reviews

Based on full-scope reviews, the bank's performance in the Dayton MSA AA and Columbus MSA AA is excellent. The bank's performance in the Cincinnati MMSA AA is good, while the Non-MSA AA is adequate. During the evaluation period, LCNB made a total of 178 qualifying investments, including broader regional investments, totaling \$19.9 million which equates to 11.4 percent of total tier 1 capital based on total deposits in the AA.

The institution has a significant level of qualified CD investments and grants, occasionally in a leadership position, particularly those that are not routinely provided by private investors.

The institution exhibits good responsiveness to credit and community economic development needs.
The institution occasionally uses innovative and/or complex investments to support CD initiatives.

Qualified Investments										
Assessment Area	Prior Period*		Current Period		Total				Unfunded Commitments**	
	#	\$(000's)	#	\$(000's)	#	% of Total #	\$(000's)	% of Total \$	#	\$(000's)
Cincinnati MMSA AA	5	1,080	87	1,354	92	51.7	2,434	12.2	0	0
Columbus MSA AA	0	0	17	2,590	17	9.5	2,590	13.0	0	0

Regional Area – with Purpose, Mandate, Function	4	3,335	3	8,000	7	3.9	11,335	56.9	0	0

Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.

Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

Cincinnati MMSA AA

The quantity of qualifying investments specifically attributable to the Cincinnati MMSA AA is good. LCNB made 92 qualifying investments totaling \$2.4 million which equates to 2.3 percent of allocated tier 1 capital based on total deposits in the AA. LCNB has five prior period investments in mortgage-backed securities with a book value of almost \$1.1 million as of December 31, 2021, relating primarily to mortgages granted to LMI borrowers. The bank also purchased almost \$1.2 million in mortgage-backed securities with similar characteristics during the evaluation period as part of a CRA qualified investment fund. In addition, LCNB made 86 donations totaling \$197,000 that supported child welfare, homeless shelters, emergency food needs, and job training assistance to LMI families in the area. The bank also provided funds to support the unexpected needs brought forth from the COVID-19 pandemic in 2020 above what was anticipated for the year. The support of numerous community service organizations reflects good responsiveness to identified investment needs.

Columbus MSA AA

The quantity of qualifying investments specifically attributable to the Columbus MSA AA is excellent. LCNB made 17 qualifying investments totaling \$2.6 million which equates to 20.6 percent of allocated tier 1 capital based on total deposits in the AA. The bank purchased a mortgage-backed security related primarily to mortgages granted to LMI borrowers in the amount of approximately \$2.6 million. LCNB also made 16 donations totaling \$33,000 that support scholarships, financial literacy, and food banks for LMI individuals and families. The support of numerous community service organizations reflects excellent responsiveness to identified investment needs.

Dayton MSA AA

The quantity of qualifying investments specifically attributable to the Dayton MSA AA is excellent. LCNB made 30 qualifying investments totaling \$3.5 million which equates to 19.7 percent of allocated tier 1 capital based on total deposits in the AA. Prior to the current review period, the bank purchased mortgage-backed securities related primarily to mortgages granted to LMI borrowers with a current book value of approximately \$281,000 as of December 31, 2021. The bank purchased an additional \$172,000 in mortgage-backed securities with similar characteristics during the evaluation period as part of a CRA qualified investment fund. Additionally, the bank purchased \$3 million in Low-Income Housing Tax Credits (LIHTC) to rehabilitate a senior living facility with 100 percent occupancy of low-income senior residents. LCNB made 24 donations totaling \$59,000 that support child welfare, senior citizen services, health screenings, and job training assistance to LMI individuals and families in the AA. The bank provided additional funds throughout 2020 to support the community during the COVID-19 pandemic.

Non-MSA AA

The quantity of qualifying investments specifically attributable to the Non-MSA AA is adequate. LCNB made 32 qualifying investments totaling \$54,000 which equates to less than 1 percent of allocated tier 1 capital based on total deposits in the AA. These donations support scholarships, homelessness, economic development, and financial literacy. Fewer opportunities exist in this AA as needs tend to be less pronounced in these largely stable middle-income geographies.

Broader Regional Area

LCNB is adequately responsive to the CD needs in its AAs so additional consideration was given to broader regional investments. In addition to the investments mentioned above that are attributable to specific AAs, LCNB made significant amounts of qualified investments that are responsive to affordable housing needs. The bank purchased LIHTC from the Ohio Capital Corporation for Housing (OCCH) in the amount of \$8 million. This investment assisted in the creation or preservation of housing units throughout Ohio. Housing units are primarily in the Cincinnati and Dayton AAs with additional units in the Columbus and Non-MSA AA. The OCCH is an independent, mission-driven nonprofit that works with private and public developers to create affordable housing opportunities throughout Ohio. The bank also maintained a prior period investment in the OCCH valued at \$3.3 million.

Service Test

The bank's performance under the Service Test in Ohio is rated High Satisfactory.

Conclusions for Areas Receiving Full-Scope Reviews

Based on full-scope reviews, the bank's performance in the Cincinnati MMSA AA and Non-MSA AA is good, while overall performance in the Columbus MSA AA and Dayton MSA AA is adequate.

Retail Banking Services

Service delivery systems are reasonably accessible to geographies and individuals of different income levels in the institution's AA.

Distribution of Branch Delivery System, as of December 31, 2021											
Assessment Area	Deposits	Branches						Population			
	% of Rated Area Deposits in AA	# of BANK Branches	% of Rated Area Branches in AA	Location of Branches by Income of Geographies (%)				% of Population within Each Geography			
				Low	Mod	Mid	Upp	Low	Mod	Mid	Upp
Cincinnati MMSA AA	59.1	19	59.4	5.3	5.3	73.7	10.5	8.9	18.8	35.7	35.0
Columbus MSA AA	7.2	1	3.1	0.0	0.0	0.0	100.0	12.8	22.9	26.9	36.4
Dayton MSA AA	10.2	3	9.4	0.0	0.0	33.3	66.7	12.8	21.5	46.2	19.4
Non-MSA AA	23.5	9	28.1	0.0	44.4	44.4	11.1	0.0	22.0	64.3	13.7

*Totals may not equal 100% due to rounding and/or a non-applicable (NA) geographic category which consists of geographies that have not been assigned an income classification.

Distribution of Branch Openings/Closings, as of December 31, 2021						
Assessment Area	Branch Openings/Closings					
	# of Branch Openings	# of Branch Closings	Net change in Location of Branches (+ or -)			
			Low	Mod	Mid	Upp
Cincinnati MMSA AA	0	1				-1
Columbus MSA AA	0	0				
Dayton MSA AA	0	0				
Non-MSA AA	0	2			-2	

To the extent changes have been made, the bank's opening and closing of branches has not adversely affected the accessibility of its delivery systems, particularly in LMI geographies and/or to LMI individuals. LCNB did not open any branches and closed three branches during the evaluation period. The bank closed one branch in the Cincinnati MMSA AA in an upper-income CT in 2021. LCNB closed two branches in the Non-MSA AA in 2020, both in middle-income CTs. None of the closed branches were located adjacent to LMI CTs.

Services, including where appropriate, business hours do not vary in a way that inconveniences its AAs, particularly LMI geographies and/or individuals. Business hours are overall standard and uniform across the branches. Management complements its traditional service delivery methods with certain alternative delivery channels, including online banking, mobile banking, ATMs, and telephone banking. These delivery methods provide access to banking services throughout all portions of the AAs. Management was able to provide limited data on mobile banking that indicated its use has increased significantly over the evaluation period. The OCC could not place significant weight on these alternative delivery systems because management did not maintain metrics to determine their effectiveness in helping to meet the credit needs of LMI individuals.

Cincinnati MMSA AA

LCNB's branch distribution in the Cincinnati MMSA AA is good. Branches are reasonably accessible to geographies and individuals of different income levels in the AA. There is one branch located in a low-income CT and one branch located in moderate-income CT. The percentage of branches in low-income geographies was below the percentage of the population in low-income geographies. The percentage of branches located in the moderate-income geographies was significantly below the percentage of the population in the moderate-income geographies. However, LCNB has three additional branches located within a half mile of moderate-income CTs. These branches serve the nearby moderate-income communities. When considering the branches in proximity to moderate-income CTs, the percentage of branches serving moderate-income CTs exceeded the percentage of the population in those geographies. In addition, LCNB is a small market participant in Hamilton County where the majority of the LMI CTs are located. During the evaluation period, one of the two branches in Hamilton County was near several moderate-income CTs.

Columbus MSA AA

LCNB's branch distribution is poor. Branches are not readily accessible to LMI CTs. LCNB has only one full-service branch in the Columbus MSA and no ATMs. The sole branch is near one low- and one moderate-income CT. Even with proximity to LMI tracts, the population of LMI individuals greatly exceeds the number potentially serviced by the branch. LCNB is not a significant holder of deposit market share in the Columbus MSA (less than 1 percent) where there are many large banks who provide services to the LMI tracts and are significant Columbus MSA AA market participants.

Dayton MSA AA

LCNB's branch distribution is poor. Branches are not readily accessible to LMI CTs. LCNB maintains only three banking offices in the Dayton MSA AA, none of which are in or near LMI CTs. However, the LMI CTs in the Dayton MSA AA are being served by several large banks that are significant Dayton MSA AA market participants.

Non-MSA AA

LCNB's branch distribution is excellent. Branches are readily accessible to moderate-income CTs within the AA. LCNB operates nine full-service branches in the AA which is comprised of Clinton, Fayette, Ross, and Preble Counties. There are ten moderate-income CTs in this area and no low-income CTs. Six of the nine branches are in, or very accessible to, the moderate-income CTs. The percentage

of branches located in or adjacent to the moderate-income tracts is significantly higher than the population of moderate-income individuals in the AA.

Community Development Services

The institution provides an adequate level of CD services.

Cincinnati MMSA AA

In the Cincinnati MMSA AA, LCNB's performance in providing CD services is good. Within the AA, 12 employees provided services to 17 different organizations, with most on an annual basis. In the AA, a few employees participated in more than one CD service. Of the services performed, 13 demonstrated leadership by serving on the board or a leadership committee of an organization. Approximately 11 services supported community services for LMI individuals, two supported affordable housing initiatives, and four supported economic development and/or revitalization/stabilization efforts. Given that many employees and 19 of the bank's branches in the state are located in this AA, this is considered an overall good level of CD services.

Columbus MSA AA

In the Columbus MSA AA, LCNB's performance in providing CD services is adequate. Within the AA, two employees provided services to two organizations, with most on an annual basis. Employees demonstrated leadership by serving on the board or committee of one of the organizations. The organizations supported economic development and/or revitalization/stabilization efforts. Given the small number of employees and with only one branch located in the Columbus MSA, this is considered an adequate level of CD services.

Dayton MSA AA

In the Dayton MSA AA, LCNB's performance in providing CD services is adequate. Within the AA, four employees provided services to four organizations, with most on an annual basis. Employees demonstrated leadership by serving on the board or committee of two of the organizations. Three services supported community services for LMI individuals and one supported economic development and supported revitalization/stabilization efforts. Given the small number of employees and with just three branches located in the Dayton MSA, this is considered an adequate level of CD services.

Non-MSA AA

In the Non-MSA AA, LCNB's performance in providing CD services is adequate. Within the AA, six employees provided services to seven different organizations, with most on an annual basis. In the AA, one employee participated in more than one CD service. Of the services performed, seven demonstrated leadership by serving on the board or a leadership committee of an organization. Three services supported community services for LMI individuals and/or affordable housing initiatives and four supported economic development, business development, and/or revitalization/stabilization efforts. Given that many employees and nine of the bank's branches in the state are located in this AA, this is considered an adequate level of CD services.

(*) The Lending Test is weighted more heavily than the Investment and Service Tests in the overall rating.

Appendix C: Definitions and Common Abbreviations

The following terms and abbreviations are used in this performance evaluation, including the CRA tables. The definitions are intended to provide the reader with a general understanding of the terms, not a strict legal definition.

Affiliate: Any company that controls, is controlled by, or is under common control with another company. A company is under common control with another company if the same company directly or indirectly controls both companies. For example, a bank subsidiary is controlled by the bank and is, therefore, an affiliate.

Aggregate Lending (Aggt.): The number of loans originated and purchased by all reporting lenders (HMDA or CRA) in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/AA.

Census Tract (CT): A small, relatively permanent statistical subdivision of a county delineated by a local committee of census data users for the purpose of presenting data. Census tracts nest within counties, and their boundaries normally follow visible features, but may follow legal geography boundaries and other non-visible features in some instances. Census tracts ideally contain about 4,000 people and 1,600 housing units.

Combined Statistical Area (CSA): A geographic entity consisting of two or more adjacent Core Based Statistical Areas with employment interchange measures of at least 15. An employment interchange measure is a measure of ties between two adjacent entities. The employment interchange measure is the sum of the percentage of workers living in the smaller entity who work in the larger entity and the percentage of employment in the smaller entity that is accounted for by workers who reside in the larger entity.

Community Development (CD): Affordable housing (including multifamily rental housing) for low- or moderate-income individuals; community services targeted to low- or moderate-income individuals; activities that promote economic development by financing businesses or farms that meet Small Business Administration Development Company or Small Business Investment Company programs size eligibility standards or have gross annual revenues of \$1 million or less; or activities that revitalize or stabilize low- or moderate-income geographies, distressed or underserved nonmetropolitan middle-income geographies, or designated disaster areas.

Community Reinvestment Act (CRA): The statute that requires the OCC to evaluate a bank's record of meeting the credit needs of its entire community, including LMI areas, consistent with the safe and sound operation of the bank, and to take this record into account when evaluating certain corporate applications filed by the bank.

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan.

This definition includes the following categories: motor vehicle loans, credit card loans, other secured consumer loans, and other unsecured consumer loans.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family, which is further classified into ‘male householder’ (a family with a male householder and no wife present) or ‘female householder’ (a family with a female householder and no husband present).

Full-Scope Review: Performance under the Lending, Investment, and Service Tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower distribution, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A CT delineated by the U.S. Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that conduct business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants, the amount of loan requested, the disposition of the application (e.g., approved, denied, and withdrawn), the lien status of the collateral, any requests for preapproval, and loans for manufactured housing.

Home Mortgage Loans: A closed-end mortgage loan or an open-end line of credit as these terms are defined under §1003.2 of this title, and that is not an excluded transaction under §1003.3(c)(1) through (10) and (13) of this title.

Household: Includes all persons occupying a housing unit. Persons not living in households are classified as living in group quarters. In 100 percent tabulations, the count of households always equals the count of occupied housing units.

Limited-Scope Review: Performance under the Lending, Investment, and Service Tests is analyzed using only quantitative factors (e.g., geographic distribution, borrower distribution, total number and dollar amount of investments, and branch distribution).

Low-Income Individual: Individual income that is less than 50 percent of the area median income.

Low Income Geography: A census tract with a median family income that is less than 50 percent.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/AA.

Median Family Income (MFI): The median income determined by the U.S. Census Bureau every five years and used to determine the income level category of geographies. The median is the point at which half of the families have income above, and half below, a range of incomes. Also, the median income determined by the Federal Financial Institutions Examination Council (FFIEC) annually that is used to

determine the income level category of individuals. For any given area, the median is the point at which half of the families have income above, and half below, a range of incomes.

Metropolitan Division: As defined by Office of Management and Budget, a county or group of counties within a Core Based Statistical Area that contains an urbanized population of at least 2.5 million. A Metropolitan Division consists of one or more main/secondary counties that represent an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): An area, defined by the Office of Management and Budget, as a core based statistical area associated with at least one urbanized area that has a population of at least 50,000. The Metropolitan Statistical Area comprises the central county or counties containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 percent and less than 120 percent, in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 percent and less than 80 percent, in the case of a geography.

Multifamily: Refers to a residential structure that contains five or more units.

MMSA (state): Any multistate metropolitan statistical area or multistate combined statistical area, as defined by the Office of Management and Budget.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A qualified investment is defined as any lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rating Area: A rated area is a state or multistate metropolitan statistical area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan statistical area, the institution will receive a rating for the multistate metropolitan statistical area.

Small Loan(s) to Business(es): A loan included in 'loans to small businesses' as defined in the Consolidated Report of Condition and Income (Call Report) instructions. These loans have original amounts of \$1 million or less and typically are either secured by nonfarm or nonresidential real estate or are classified as commercial and industrial loans.

Small Loan(s) to Farm(s): A loan included in 'loans to small farms' as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have

original amounts of \$500,000 or less and are either secured by farmland, or are classified as loans to finance agricultural production and other loans to farmers.

Tier 1 Capital: The total of common shareholders' equity, perpetual preferred shareholders' equity with non-cumulative dividends, retained earnings and minority interests in the equity accounts of consolidated subsidiaries.

Upper-Income: Individual income that is at least 120 percent of the area median income, or a median family income that is at least 120 percent, in the case of a geography.

Appendix D: Tables of Performance Data

Content of Standardized Tables

A separate set of tables is provided for each state. All multistate metropolitan statistical areas, if applicable, are presented in one set of tables. References to the “bank” include activities of any affiliates that the bank provided for consideration (refer to appendix A: Scope of the Examination). For purposes of reviewing the Lending Test tables, the following are applicable: (1) purchased loans are treated the same as originations; and (2) “aggregate” is the percentage of the aggregate number of reportable loans originated and purchased by all HMDA or CRA reporting lenders in the MMSA/AA. Deposit data are compiled by the FDIC and are available as of June 30th of each year. Tables without data are not included in this PE.

The following is a listing and brief description of the tables included in each set:

- Table O. Assessment Area Distribution of Home Mortgage Loans by Income Category of the Geography** - Compares the percentage distribution of the number of loans originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies to the percentage distribution of owner-occupied housing units throughout those geographies. The table also presents aggregate peer data for the years the data is available.
- Table P. Assessment Area Distribution of Home Mortgage Loans by Income Category of the Borrower** - Compares the percentage distribution of the number of loans originated and purchased by the bank to low-, moderate-, middle-, and upper-income borrowers to the percentage distribution of families by income level in each MMSA/AA. The table also presents aggregate peer data for the years the data is available.
- Table Q. Assessment Area Distribution of Loans to Small Businesses by Income Category of the Geography** - The percentage distribution of the number of small loans (less than or equal to \$1 million) to businesses that were originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies compared to the percentage distribution of businesses (regardless of revenue size) in those geographies. Because aggregate small business data are not available for geographic areas smaller than counties, it may be necessary to compare bank loan data to aggregate data from geographic areas larger than the bank’s AA
- Table R. Assessment Area Distribution of Loans to Small Businesses by Gross Annual Revenue** - Compares the percentage distribution of the number of small loans (loans less than or equal to \$1 million) originated and purchased by the bank to businesses with revenues of \$1 million or less to: 1) the percentage distribution of businesses with revenues of greater than \$1 million; and, 2) the percentage distribution of businesses for which revenues are not available. The table also presents aggregate peer small business data for the years the data is available.

- Table S. Assessment Area Distribution of Loans to Farms by Income Category of the Geography** - The percentage distribution of the number of small loans (less than or equal to \$500,000) to farms originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies compared to the percentage distribution of farms (regardless of revenue size) throughout those geographies. Because aggregate small farm data are not available for geographic areas smaller than counties, it may be necessary to use geographic areas larger than the bank's AA.
- Table T. Assessment Area Distribution of Loans to Farms by Gross Annual Revenues** - Compares the percentage distribution of the number of small loans (loans less than or equal to \$500 thousand) originated and purchased by the bank to farms with revenues of \$1 million or less to: 1) the percentage distribution of farms with revenues of greater than \$1 million; and, 2) the percentage distribution of farms for which revenues are not available. The table also presents aggregate peer small farm data for the years the data is available.
- Table U. Assessment Area Distribution of Consumer Loans by Income Category of the Geography** – Compares the percentage distribution of the number of loans originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies to the percentage distribution of households in those geographies.
- Table V. Assessment Area Distribution of Consumer Loans by Income Category of the Borrower** - Compares the percentage distribution of the number of loans originated and purchased by the bank to low-, moderate-, middle-, and upper-income borrowers to the percentage distribution of households by income level in each MMSA/AA.

LCNB National Bank
C/o Mr. Eric J Meilstrup
PO Box 59
2 North Broadway
Lebanon, OH 45036

Dear Mr. Meilstrup and LCNB National Bank,

On behalf of the Epilepsy Alliance Ohio, I would like to thank you for your generous grant in the amount \$1,000.00 paid by check # 009827 dated 10/20/2022. We appreciate your continued support of our agency.

As requested, your grant has been allocated to support the Epilepsy Alliance Ohio's Counseling Program. The Epilepsy Alliance Ohio has staff that are educated and trained in assisting people with epilepsy and their families in the area of counseling. The counseling services offered include those newly diagnosed with epilepsy who may need guidance in accepting their diagnosis, to those who have had seizures for years and may be resentful of their seizures. Many of the counseling sessions also lead people to resources in the community that they were not aware of. The counseling services range from individual and family sessions to several separate support groups in our service area.

Again, thank you so much for your thoughtfulness and know that you have made a positive difference in the lives of so many of the people that we serve!

Sincerely,

Kathy Schrag
Executive Director

Thank you
very much for
your generous
donation
and support!

The Epilepsy Alliance Ohio is a recognized 501(c) 3 not for profit organization.

SERVING FAMILIES IN KINGS LOCAL SCHOOL DISTRICT

November 29, 2022

Mr. Eric J. Meilstrup
President & CEO
LCNB National Bank
P.O. Box 59
Lebanon, OH 45036

Dear Mr. Meilstrup,

Thank you very much for your generous gift of \$500.00 to Kings Local Food Pantry received on November 17, 2022.

Because of your support, we can provide holiday meals, including turkey or hams and all of the trimmings, for over 120 families facing food insecurity in our local community. These are meals we would not have been able provide through our regular pantry operations.

We wish you and all the associates of LCNB National Bank a happy and safe Holiday Season, and a prosperous 2023.

Sincerely,

William J. Smith
President- Board of Trustees
Kings Local School District Area Community Services, Inc.

No goods or services were received in return for this gift.

Kings Local School District Area Community Services, Inc., dba Kings Local Food Pantry is designated by the IRS as a 501(c) (3) organization. Our EIN# is 31-1200298

Lebanon, OH 45026

Dear LCNB,

On behalf of Home Is the Foundation we would like to thank you for your generous monetary gift of **\$3,000.00** for our Senior Home Repair Program.

Each year Home Is The Foundation continues to advance our vision that Everyone in Preble County has a safe and affordable place to call HOME. Through our Affordable Housing, Homeless Services, and Senior Home Repair Program we continue to see many lives changed for the better.

Home is the Foundation is a 501 (c)(3) organization (EIN 42-1580792). For Tax reporting purposes, we verify that Home is the Foundation has provided no goods or services to you in return for your generous gift. As such, your contribution may be fully tax deductible to the maximum extent allowable.

Thank you again for your generous support. Please do not hesitate to contact me should you want to learn about more ways to get involved with our mission.

Best wishes,

Clayton Genth,
Executive Director

January 17, 2023

LCNB National Bank
Kylie White
P.O. Box 59
Lebanon, OH 45036

Dear Kylie,

Thank you for your \$3,000.00 donation to Mid-Ohio Food Collective received on 12/29/2022. Your generosity helps ensure the ongoing acquisition and distribution of both food and personal care items to meet the needs of our customers as demand continues to rise.

While basic household expenses - including groceries, rent, and gas - remain at an all-time high, more people are turning to Mid-Ohio Food Collective and our partner agencies for help. Simultaneously, supply chain issues and the increased costs to obtain and move food are also squeezing the Food Collective's budget. Your donation is helping address these challenges while putting more nutritious meals onto the plates of residents of central and eastern Ohio.

Thank you again for your generosity. We will continue to work together to ensure that everyone has the food they need to thrive.

Additionally, if you are looking for another way to connect with the work you support, we have an immediate need for volunteers. To learn more, visit mofc.org/volunteer.

Sincerely,

Emily Alonso-Taub
Senior Vice President, Development

P.S. Your first and last name will be published in our annual donor roll on our website. Should you wish to make changes or remain anonymous, please email development@mofc.org or call 614-782-5511.

Per IRS code effective January 1, 1994, we acknowledge no goods or services were received in return for your contribution.

Because Every Child Deserves a Family

December 4, 2023

LCNB National Bank
Attn: Mr. Eri Meilstrup
2 North Broadway
Lebanon, Ohio 45036

Dear Mr. Meilstrup,

On behalf of Focus on Youth, Inc., we acknowledge receipt of the \$2,000.00 grant for our Behavioral Health Program. Focus on Youth, Inc. provides foster care, adoption, and behavioral health services to youth and families in southwest Ohio. For more than 31 years, Focus on Youth, Inc. has been recruiting high quality foster families and providing intensive training in preparation to parent Ohio's most vulnerable youth in foster care. Our Behavioral Health program provides crucial mental health services to youth and families in Southwest Ohio.

Thank you again for supporting our mission, efforts, and belief that *Kids Grow Best in Families*. Your willingness to help has made all the difference to a child.

Sincerely,

A handwritten signature in cursive script that reads "Penny J. Dougan".

Penny J. Dougan
Operations Manager

A handwritten note in cursive script that reads "Thank you for your support!".

CLOTHES THAT **WORK**

PROFESSIONAL DEVELOPMENT NEVER GOES OUT OF STYLE

November 10, 2023

Lisa Emmel
LCNB National Bank
2 N Broadway St
Lebanon, OH 45036-1789

Dear Lisa,

Thank you for supporting the 2023 Fashioning Futures Luncheon "On The Move" as a **Silver Sponsor** with a gift of **\$1,000**. The generous support from LCNB allows CTW to continue to achieve our 5-year strategic growth plan; to increase our capacity to serve more individuals, operate efficiently, to grow organizational awareness and to expand our community outreach beyond the walls of the Job Center through our new Mobile Outreach Initiative (MOI).

Funds generated from the luncheon account for 20% of CTW's annual revenue. Your financial support provides critical funding for our programs and services and helps us create an experience where hundreds of local leaders and community champions can see the direct impact CTW has on so many local job seekers each year.

We cannot thank you enough for your generosity and for believing in the mission of CTW to clothe, educate and empower individuals to prepare them for employment success. As our partner in workforce development, your benevolence enables us to continue to focus on making a significant impact on the lives of our clients by helping them create their own financial stability through employment well into the future.

Together, we're fashioning a brighter future for all and improving the employment health of the community.

Sincerely,

Cindy Garner
Executive Director

Thanks to you and LCNB, our event was a record-breaking success! We exceeded our goal - a great way to wrap up our 25th!

*Tax deductible amount is \$840. Please retain this letter for your tax records. Clothes That Work Taxpayer ID#: 31-15750

Dear Valued Supporter,

As I reflect on 2023, I would like to take a moment to say thank you for your generous monetary donation. It is because of donors like yourself that we were able to meet the basic needs of food, clothing, and financial assistance by helping 8,168 people in 2023. This is a 20% increase from 2022.

When you make a gift to us, we can use those resources to give free clothing for people to start a new job, prevent utility disconnections and/or evictions and provide children with grade specific school supplies/back packs. Our food pantry has experienced the largest increase in demand by serving 5,516 individuals. This equates to 82,740 meals provided to 1,976 household. This increase could be attributed to the end of the pandemic-era benefits and the rising cost of living, which has forced families to choose between paying bills and buying groceries. Not only are more families requesting help, but they are using our services more frequently.

As part of efforts to ensure that we are meeting the needs of the people we serve, we survey our families each quarter. Here are a few of their comments:

With the current price of groceries, coming here provides a huge relief of my financial burdens for this single mother of 2. Thank you & God Bless!

If not for the services here, we (my family) would go hungry. This place is amazing in all they do for the community.

This pantry is my only option for food. I am on a fixed income and don't qualify for food stamps. I love that you guys are here; otherwise, I would not eat.

We are proud of all the work we have accomplished in 2023 and hope to do even more in 2024. I truly hope we can count on your continued support. I understand there are many places that have needs; just know that your contributions are making a difference to the Preble County families we serve.

Enclosed is a listing of your gifts from the 2023 calendar year. I hope it's invaluable for your information and possible tax planning. Please note that no goods or services were received in exchange for this gift(s).

If you have any questions or comments, please contact me at 937-456-6560 or email jmccarty@commongoodpreble.org. For regular updates on the progress of The Common Good of Preble County, follow us on Facebook or visit our website www.commongoodpreble.com.

Sincerely yours,

Jenny McCarty
Executive Director

LCNB Investment Services
2 N Broadway, P.O. Box 59
Lebanon, OH 45036

Dear friends at LCNB,

Thank you for supporting the Boys & Girls Clubs of Greater Cincinnati! Your incredibly generous donation of \$1,000.00 allows us to provide our life-changing programming to over 2,400 youth in Greater Cincinnati, Northern Kentucky & Clermont County.

Your donation enables us to continue providing a safe, nurturing environment where children and teenagers can learn, grow, and thrive. Through our diverse range of programs, from academic enrichment to leadership development to healthy living initiatives, we are able to carry out our mission of *enabling all young people, especially those who need us most, to reach their full potential as productive, caring, responsible citizens*. Brandi, a member at our Sheakley Club, is an excellent example of this.

Brandi was in the 3rd grade during the 2022-2023 school year. BGCGC staff noted that Brandi is a hard worker, yet she struggled with reading. Her mid-year report card indicated that English Language Arts was an area of concern and that she was at risk of being held back. Club staff immediately began providing Brandi with one-on-one tutoring, online reading comprehension and phonological awareness tutoring, and added 15 minutes of reading time to her schedule every day. In May of 2023, she was thrilled to learn that she was advancing to 4th grade in the 2023-2024 school year.

Thanks to your generosity, we are able to help Brandi & thousands of other kids like her in our community. Every young person deserves a great future, and together, we can put them on that path.

The Boys & Girls Clubs of Greater Cincinnati continues to empower children and youth to discover, develop, and achieve great futures. We could not achieve all that we do without the tremendous support of our community and friends like you. Your gift allows us to keep the doors open to our 7 Clubs & allows us to keep our membership 100% **free** to the families we serve. On behalf of Club members, staff and the Board of Trustees, thank you for your kind and generous support.

Best Wishes,

Sydney Maxwell
Associate Director of Development

Re: Shifting Into Gear Donations

Dear Lisa,

Thank you so much for being a part of the Clothes That Work 2024 Fashioning Futures Luncheon this year. Your kind donation allows us to professionally dress our clients and offer soft skills that provide an experience of care, dignity, and respect.

Thank you for your sponsorship gift of \$1,000 for the event on October 24th, 2024. We have provided you with eight tickets that included lunch with a fair market value of \$20 per lunch x 8. Your tax deduction is limited to the amount of cash and value of any property contributed, reduced by the value of any goods or services received in return. Accordingly, the amount eligible for a federal income tax deduction is \$840.

You should retain this receipt/letter in your records for tax purposes. As you may be aware, the IRS no longer will accept a canceled check as substantiation for a charitable contribution of \$250 or more. Clothes That Work is an exempt organization as described in Section 501©(3) of the Internal Revenue Code; EIN31-1575093.

Your support directly impacts our community by empowering and preparing individuals for employment success.

Kind regards,

Jane Snyder
