

LCNB CORP. REPORTS FINANCIAL RESULTS FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2016

LCNB Corp. (LCNB) today announced net income of \$2,968,000 (total basic and diluted earnings per share of \$0.30 and \$0.29, respectively) and \$5,932,000 (total basic and diluted earnings per share of \$0.60 and \$0.59, respectively) for the three and six months ended June 30, 2016, respectively. This compares to net income of \$3,123,000 (total basic and diluted earnings per share of \$0.33 and \$0.32) and \$5,957,000 (total basic and diluted earnings per share of \$0.63 and \$0.62) for the same three and six-month periods in 2015. Results for 2016 were significantly affected by the acquisition of BNB Bancorp, Inc. ("BNB") on April 30, 2015. In addition, LCNB sold impaired loans with a carrying value of approximately \$4.5 million during the second quarter 2015.

Commenting on the financial results, LCNB Chief Executive Officer Steve Foster said, "we are pleased to present our financial results for the three and six months ended June 30, 2016. Although net income for 2016 is less than 2015 thus far, the decrease is primarily due to two one-time expenses that were recognized to position us for increased future profitability. The first of which is a \$251,000 penalty incurred during the first quarter for the early payoff of a now high-rate Federal Home Loan Bank borrowing, which will significantly decrease future interest expense. The second is a \$346,000 write-down of a commercial other real estate owned property to its estimated liquidation value as we prepare to auction the property.

"LCNB remains committed during 2016 to projects and activities that will strengthen our infrastructure and provide for continued growth and expansion. Construction continues on our new Operations Center in Lebanon, Ohio, which will increase employee efficiency and enhance customer service when completed. A new mobile banking application was released to customers during the second quarter, and organic loan growth during the six month period of 2016 was \$29.5 million, contributing to increased net interest income."

Net interest income for the three and six months ended June 30, 2016 decreased \$475,000 and \$31,000, respectively, from the comparable periods in 2015, due primarily to the absence during 2016 of non-accrual interest recognized as a result of the 2015 impaired loan sale mentioned above, partially offset by organic growth in LCNB's loan portfolio.

The provision for loan losses for the three and six months ended June 30, 2016 was \$281,000 and \$260,000, respectively, less than the comparable periods in 2015. Net loan charge-offs for the six months ended June 30, 2016 and 2015 totaled \$242,000 and \$988,000, respectively. The 2015 balance includes charge-offs recognized as a result of the impaired loan sale mentioned above. Non-accrual loans and loans past due 90 days or more and still accruing interest increased \$784,000, from \$2,282,000 or 0.30% of total loans at December 31, 2015, to \$3,066,000 or 0.38% of total loans at June 30, 2016, primarily due to two loans to the same borrower totaling \$1,307,000 that were newly classified as non-accrual during the first quarter 2016. Other real estate owned (which includes property acquired through foreclosure or deed-in-lieu of foreclosure) decreased from \$846,000 at December 31, 2015 to \$682,000 at June 30, 2016 due to a write-down totaling \$346,000 recognized on commercial property, partially offset by an addition to this category.

Non-interest income for the three months ended June 30, 2016 was \$81,000 less than the comparable period in 2015 primarily due to a decrease in gains from sales of loans. The decrease reflects the absence of gains recognized as a result of the impaired loan sale in 2015. Non-interest income for the six months ended June 30, 2016 was \$255,000 greater than the comparable period in 2015 primarily due gains from sales of investment securities, partially offset by the decrease in gains from sales of loans.

Non-interest expense for the three and six months ended June 30, 2016 was \$42,000 and \$685,000, respectively, greater than the comparable periods in 2015. The increase for the quarter was primarily due to increases in salaries and employee benefits and the write-down of other real estate owned property mentioned above, largely offset by the absence of merger expenses during the second quarter 2016. The six-month period increased for substantially the same reasons as the quarter plus a \$251,000 penalty for early payoff of a \$5 million Federal Home Loan Bank ("FHLB") advance recognized during the first quarter 2016. The FHLB advance had an interest rate of 5.25% and was paid off to reduce interest expense on long-term debt. Salaries and employee benefits increased primarily due to salary and wage increases, employees retained from the BNB acquisition, and an increase in the number of employees in addition to the acquisition.
